THE MUSIC DIDN'T DRIVE HIM INTO A FRENZY.
IT WAS THE GUY WHO SNAKED HIS NEW ISSUE OF NINTENDO POWER.

If your name isn't on the cover of this mag then how did you get this issue into your grubby game-gripping palms anyway?  A: Begged it. B: Snaked it. C: Got scammed at the newstand for $3.95. ✪ If you're guilty of any of these charges, there's something you should know. Until you get your own subscription, you're never gonna beat somebody who gets their own monthly issue of Nintendo Power. ✪ Be serious for a minute. How do you expect to compete against someone who gets hundreds of hot game tips every month—tips that buy them extra lives, help them skip levels and beat the crud out of non-subscribing losers time after time—you can't. The only way to stay in the game and stay up-to-date with Ultra 64 and Virtual Boy is to sign-up now for $18* and get a fresh, crispy, tip-packed issue of Nintendo Power in your mailbox every month. ✪ So forget begging and mooching old worn out issues of Nintendo Power off your friends. There's only one thing that feels better than getting your own copy of Nintendo Power every month.

And that's beating the crud out of someone who doesn't.

I have been wondering. Is your staff all disciplined, hardworking, cranky old people with no sense of humor? Or heavy-metal, purple-hair and slaughterhouse, punk teenagers?

ROBERT COMEAU

It depends on the phase of the moon.

I'm writing on behalf of Lucy the basset hound. After numerous negotiations, Lucy has agreed to be the unofficial mascot of Nintendo Power. How about we put it to the test? Have the intelligent, understanding, cool Nintendo Power subscribers vote to see who is the most popular. If the winner is Lucy she gets to be the official mascot of Nintendo Power for one day. So who will it be? Lucy versus Mario? The basset hound versus the plumber? The Floridian versus the Brooklynite? To find out put this letter and her picture in Player's Pulse. P.S. Don't ask how I got her to wear that shirt.

MICHAEL ROBERTS
RUSKIN, FL

Michael—No need for a vote. Mario is doggone crazy about appointing Lucy mascot for a day. But, he'll keep the job long term.

I am writing about the new setup of Nintendo Power. I am sorry to say that I don't exactly support the new layout. I do like the new Power Chart section and the New Playing area. Unfortunately, I don't care for the new Pak Watch or the Take Twos. Not to put you down or anything, I personally would not buy a game reviewed in the Take Two section unless I have played it first. I also find myself compelled to write about the Epic Strategy section. Don't get me wrong, it's a great section and all, but in the March issue (Volume 70) the underlying graphics are tough to read.

Your products are very well constructed. My dog got hold of a video game and chewed on it for an hour before anyone decided to do anything. The game doesn't look too well, but still works fine. Little sisters are also game destroyers. Mine gave my controller a dip in the toilet. It works O.K., but smells funny. I'm very impressed with all of your products and I thought I should let you know.

Do you have an all-time favorite game? Here are a few of the classic titles that have topped the charts for months on end.

**GAME NAME** | **MONTHS ON THE CHARTS** | **HONORS**
---|---|---
F-ZERO | 24 | F-Zero was one of the first racing games on the Super NES and is still considered one of the best! Smooth graphics and great play control make this game a classic.
PILOTWING | 11 | Not your ordinary flying game, Pilotwings surprised the video game world. Instead of flying around blasting bad guys, players tested their flying skills in order to earn a pilot's license.
The fate of the world is at stake in Acclaim's latest fighting game! The evil emperor, Darkseid, wants to enslave earth and use it as a base for the conquest of the universe. But first he must vanquish the six members of the Justice League Task Force. His evil scheme: have them fight each other! In order to figure out Darkseid's sinister plan, you must battle a bevy of villains and superheroes, then defeat Darkseid himself. But beware. Your most formidable opponent may turn out to be yourself!

Aquaman's heritage makes him a formidable adversary on both land and sea. Having experienced great tragedy in his life — his son was killed in a battle with an archenemy — Aquaman knows he can give no quarter as he battles earth's invaders.

Aquaman wasn't hesitant to use this move against rivals who let down their guard. Move in close and hit a Punch Button.

**BODY THROW**

Aquaman won't hesitate to use this move against rivals who let down their guard. Move in close and hit a Punch Button.

**BODY-SLAM**

Aquaman's opponent won't know what hit him! Knock opponents off their feet by beginning a Spinning Uppercut Punch, but finishing with a Kick Button.

**QUICKSILVER MOVES**

Aquaman's top weapons are his unique water blast moves. Thanks to his dense body structure developed to withstand water pressure at great depths, he's also a heavy puncher.

**WATER BLAST**

End this stunning move by pressing Down. Roll your thumb toward your opponent and hit a Punch Button.

**SPINNING UPPERCUT**

Born deep below the ocean waves in the kingdom of Atlantis, Aquaman was adopted by a lighthouse keeper and raised as Arthur Curry before becoming a founding member of the Justice League. Gifted with lightning-fast speed and the ability to communicate telepathically with sea life, Aquaman has waged many battles to keep the oceans free.
High-school student Wally West gained the ability to move at super-fast speed in a freak accident while visiting Barry Allen, the original Flash. After serving an apprenticeship as Kid Flash, Wally took over as The Flash himself. He uses his blinding speed to battle criminals all over the world but faces his toughest challenge yet with the invasion of the evil Darkseid.

The Flash lost velocity while battling alien invaders of Earth but is still a super-strong hero with a top speed of three times the speed of sound. His ability to vibrate through solid matter serves him especially well when battling behemoths like Darkseid and Despero.

The Flash's best strategy is to dart over, around and through opponents, never letting them know where he'll turn up next. He can confuse opponents by battering them with tornadoes. His speed punches, though deadly, require him to stand still—always a big gamble.

**FLY-THROW**
The Flash likes to send dazed opponents tumbling head-over-heels. Move in close, then press the Medium or Hard Kick Button.

**BODY-THROW**
At close range, press Toward your opponents and then press the Medium or Hard Kick Button to send them sailing. One word: wham!

**TELEPORT-RUN**
Vibrate through The Flash's opponent by starting forward, then rolling your thumb Down and Away from the opponent. Finish by pressing a Kick Button.

**TORNADO-BLAST**
Press Down on the Control Pad, then roll your thumb Toward your rival and press a Punch Button. It's certain to leave your enemy winded.

**SPEED-PUNCHES**
The seventh time's the charm. That's the number of quick punches you'll need to throw to get these fireballs hurtling toward your enemy.
The Caped Crusader is a superb athlete, accomplished in almost every form of hand-to-hand combat. When in a jam, he often turns to the many unique tools on his utility belt. His superlative leaping ability is guaranteed to stun an unwary opponent.

**MOVES**

Shrewd use of his Batarang and smoke bomb allows Batman to move in close, where his formidable martial arts skills make him a particularly fearsome combatant. His Glide Kick is powerful but must he carefully timed if he doesn't want to overshoot his opponent!

**HEAD BUTT**

Batman's extensive training and legendary self-discipline pay off in this audacious move. At close range, press the Medium or Hard Punch Button.

**BATARANG**

Press Down, then roll your thumb Toward Batman's opponent and press a Punch Button. The Batarang moves slowly but packs a wallop.

**SMOKE BOMB**

Start Toward Batman's opponent, circle Down and Away, then press a Kick Button. The strength of the button pressed determines the distance traveled.

**SPINNING KICK**

Start by pressing opposite the direction Batman is facing, then quickly wheel Down and Toward his opponent. Finish by pressing a Kick Button.

**GLIDE KICK**

Press Down, roll your thumb Away from Batman's rival and press a Kick Button. The strength of the button pressed determines the distance traveled.

At the tender age of eight, Bruce Wayne dedicated himself to a life of battling evil-doers after seeing his parents murdered in cold blood. Though he affects the image of a millionaire, playboy and businessman, Batman is most at home when he dons his distinctive purple-and-black suit and tracks down criminals on the streets of Gotham City. Batman is expert in both martial arts and criminology. His laboratory in the Batcave, deep beneath his palatial mansion, is stocked with the latest in crime-fighting technologies.
Endowed with super strength and a virtually indestructible body, Superman can defy gravity by flying, melt objects with his heat vision and immobilize rivals with his freeze breath. Superman is extremely brave and will make any effort necessary to save others.

Superman's flying ability and super speed allow him to attack quickly from a distance. An especially powerful combo begins with the Eye Beams or Freeze Breath and ends with the Forward Flying Thrust Punch.

**Super Body Slam**

Move in close, then press Medium or Hard Kick. Superman will grab his opponent, fly up and slam him or her into the ground. This attack is a real back-breaker!

**Eye Beams**

Push Superman's opponent back by pressing Down, rolling your thumb a quarter-circle Toward the opponent, then pressing a Punch Button.

**Forward Flying Thrust Punch**

Press Down, roll your thumb a quarter-circle Away from your opponent, then press a Kick Button. Superman will levitate until you press a Punch Button.

As Clark Kent grew up on a Kansas farm, he astounded his parents with superhuman feats. At the age of eighteen, Clark learned that he was the sole survivor of the doomed planet Krypton. Shortly afterward, he moved to Metropolis and became a reporter for the Daily Planet. A true idealist, he uses his amazing abilities to defend "Truth, Justice And The American way."
This gigantic telepath nourishes a special hatred for the Justice League. After cruelly ruling his home planet, Kalanor, Despero was finally captured with help from Justice League Task Force members. However, he managed to escape and return to his blighted planet, where he hurled himself into a tower of nuclear flame. This desperate act increased his strength a hundredfold and made him even more savage than before.

No superhero or villain combines brute strength and telepathic powers like Despero. With his mutant third eye, he can perform astounding feats of hypnosis and telekinesis. In hand-to-hand combat, his enormous size and ferocious demeanor make him truly frightening.

**Despero**

Despero can generates a deadly blast with his third eye. He is slower than most of his opponents. At close quarters, though, he is a ferocious fighter, capable of pummeling an opponent with a seemingly endless array of kicks, punches and body slams.

**Backbreaker**

At close range, grab your opponent and press Medium or Hard Punch. This savage move is the last thing an opponent needs!

**Eyeblast**

Press Down, roll your thumb Toward your opponent, then press a Punch Button. Few can withstand this attack from Despero’s eerie eye.

**Head-thrust**

Press the Control Pad in the direction Despero is facing, then follow with the same sequence used to launch an Eye Blast. Despero will launch his 8-foot 5-inch frame in a terrifying attack.

**Leaping Kick**

An alternate tactic for attacking from a distance. Press Down, roll your thumb Away from Despero’s opponent, then push a Kick Button.
Also known as Princess Diana of the Amazons, Wonder Woman is a fearless warrior who serves as the Amazonian ambassador to "Man's World." She is named for Diana Trevor, an American aviator who once saved the Amazons from the rampaging hordes of Tantalus. With the help of her mother, Hippolyte, Wonder Woman vanquished the Amazons' ancient rivals. She often finds herself defending the innocent from the forces of evil.

Though capable of flying and superhuman feats of strength, Wonder Woman is a gentle soul whose crime-fighting methods embody her belief in the power of peace. Wonder Woman's faith in Olympian virtues will be put to the ultimate test by Darkseid's evil plan.

**MOVES**

Wonder Woman has superhuman strength and the ability to fly. In hand-to-hand combat, she uses the unusual methods of the ancient Greeks. She also has a Magic Lasso and the ability to deflect projectiles back at opponents with her silver wrist guards.

**SUPER-THROW**

Move in close, then press the Medium or Hard Punch Button. This attack is guaranteed to shatter vases and send opponents flying!

**SPRINGING-KICK**

Press the Control Pad Away from the direction Wonder Woman is facing, roll your thumb in a half-circle Down and Toward her opponent, then press a Kick Button.

**MAGIC-LASSO**

Press the Control Pad Away from Wonder Woman's opponent, execute a half-circle Down and Toward her opponent, then press Punch.

**HOVER-AND-DIVE**

Begin this dazzling move by pressing Down, rolling your thumb 90 degrees Away from Wonder Woman's opponent, then pressing a Kick Button.

**FIRST-GUARD-REFLECT**

Executed deftly, this move deflects all projectile attacks! Press Down, rotate a quarter-circle Away from your opponent, then press a Punch Button.
The world's greatest archer, Green Arrow is also a superb hunter and tracker and unsurpassed in hand-to-hand combat. Fighting the nefarious Darkseid and his bloodthirsty confederates, Despero and Cheetah, will tax Green Arrow's skills and smarts to the limit!

**MOVES**
As a mortal, Green Arrow will have to rely on guile and a one-of-a-kind quiver to best his opponents. His best strategy is to pepper an opponent with different kinds of arrows, then attack with low, sliding kicks.

**ICE ARROW**
Sending a chill down a rival's spine may be Green Arrow's best opening gambit. Press Down, roll your thumb in a quarter-circle toward the opponent, then press Kick.

**FLAME ARROW**
Press Down and roll your thumb toward the opponent, then press Kick. Drive your opponent back far by pressing the Hard Kick Button, then follow with any arrow combination. Ouch!

Millionaire Oliver Queen's life changed forever when he fell off a yacht and found himself stranded on a remote island. Forced to rely on his wits, Queen became an expert archer. When a group of marijuana farmers arrived on the island, he used his newfound skills to capture them and return triumphantly to civilization. A man of unbending moral standards, Green Arrow will fight all odds on behalf of the weak and the oppressed.
Despite the fact that she is human, Cheetah shows no loyalty to her fellow earthlings. Unlike Darkseid, who has been known to spare vanquished rivals, Cheetah is a ruthless combatant who will exploit any weakness in an opponent.

**Moves**

Cheetah’s razor-sharp claws, blazing speed and superhuman strength make her especially lethal in hand-to-hand combat. Opponents have a hard time landing any blows against her vicious, slashing attacks.

**Flashcat**

Cheetah takes full advantage of her cat-like speed and agility by attacking and retreating quickly. When she gets close to an opponent, press the Medium or Hard Punch Button. Even her strongest opponents have no defense against this ferocious maneuver.

**Neck-Slash**

At close quarters, push the Medium or Hard Kick Button. Cheetah will grab her opponent in a headlock and lash their face without remorse. When the opponent finally throw her off, be prepared to counterattack immediately.

**Roll-Slash**

Hit your opponent with a razor-sharp wheel by pressing Toward your opponent, rotating your thumb Down and Away, and then pressing a Punch Button.

**Gliding-Slash**

Press the Control Pad Away from Cheetah’s opponent, rotate Down and Toward the opponent to a 180 degree arc, and finish by pressing a Kick Button.

---

On an African expedition, renowned but ruthless archeologist Barbara Ann Minerva discovered a mysterious cult that worshiped a cat-god. She drank a secret potion that transformed her into the Cheetah. With the formula for the potion lost forever, she must murder in order to replenish her powers. She is an archenemy of Wonder Woman.
Darkseid murdered his mother and banished his wife and son in order to gain absolute control of his home planet of Apokolips. Since then, he has broken pacts and betrayed allies, all with one goal in mind: total domination of the universe! Because he usually acts through subordinates, no one knows his full powers in hand-to-hand combat. Woe to his unwary opponents!

This diabolical being is incredibly strong and nearly invincible. Despite his gargantuan stature, he can attack with surprising quickness. Even in hand-to-hand combat, he plots his moves carefully, often launching an overwhelming attack when an opponent least expects it!

**MOVES**

Darkseid has superior leaping ability and can hammer opponents with his huge fists. Despite his vast physical powers, though, his deadliest weapon may be his burning stare, which creates an "Omega Effect" that can disintegrate opponents!

**KNEE-BLAST**

When Darkseid is near his opponent, push the Medium or Hard Kick Button. Be prepared to follow up this merciless attack.

**EYE-BLAST**

Terrify your opponents by pressing Down, then rolling your thumb in a quarter circle Toward them and pressing a Punch Button.

**SLIDING-BACKHAND-PUNCH**

Begin by pressing the Control Pad Away from your opponent. Circle Down and Toward your opponent, then press a Punch Button. This painful assault is a great follow-up to the Eye Blast.

**JUMPING HEAD-STOMP**

Press the Control Pad Away from your nemesis, then roll your thumb Down and Forward in a 180 degree arc and quickly press a Kick Button. After this complex move, your opponent won't have time to ask, "What hit me?"
SNK, Takara and Playmates have teamed up to bring another of the Fatal Fury games to the Super NES! Once again the world’s top fighters have come together to find who’s the best combatant, only this time more fighters have been invited to the tournament. The extra fighters help make Fatal Fury Special a better-balanced street fighting game than it was before, offering a character for just about any player’s fighting style. Much of the game looks the same as Fatal Fury 2, but the animation detail has been improved, making this game a smoother arcade-to-home translation.

Players have several different ways to test their skills in Fatal Fury Special. The one-player game, as with most fighting games, pits the player against a host of computer controlled opponents. With each victory, the player moves closer to the ultimate battle against Ryo Sakazaki from the Art of Fighting game. Players looking for a little variety in their combat should check out the Countdown Mode. In this mode, players must defeat back-to-back opponents as fast as they can, earning extra points for quicker takedowns.

One of the drawbacks to the earlier home versions of Fatal Fury was the lack of the combination attacks. In the arcade, Fatal Fury was one of the first street fighting games to allow players to link moves in deadly combinations. When the game came to the Super NES, the combinations were lost. While it was still possible to hit your enemy with combos, pulling them off was a matter of luck. Fatal Fury Special has cured that problem. Players should be able to use their favorite arcade combos in the home game as well! Some of the controller moves are more difficult to pull off in this version, but the changes can be mastered with a little practice.
The best new feature in Fatal Fury Special is the lineup of fighters. All of the characters that appeared in the earlier versions of Fatal Fury are back in this game, but players can also use the bosses from the earlier games as well.

**Terry Bogard**
Players that prefer loose punches and jumping attacks will like fighting as Terry.

**Jubei Yamada**
Jubei Yamada is a judo fighter, so most of his attacks require players to get in close to their opponents.

**Axel Hawk**
As a boxer, Axel Hawk's style is centered around punches. Luckily, his punches are fast.

**Andy Bogard**
Andy is for players who like to use kicks. His strength and speed make him a great fighter.

**Kim Kap Hwan**
Kim is a fast aerial fighter. Players who like to keep the action in the air will like Kim.

**Tung Fu Rue**
Tung Fu Rue is the master who taught Terry and Andy everything they know.

**Joe Higashi**
Joe's fighting style tends to be fast and furious. Players will thrill at his easy-to-perform special attacks.

**Mai Shiranui**
Mai's very fast, but her attacks tend to inflict very little damage.

**Geese Howard**
Geese is a very strong fighter. Players who can master his attacks are hard to defeat.

**Big Bear**
Size and strength sum up Big Bear's style. His large size and slow speed make him an easy target.

**Billy Kane**
Many of Billy's attacks are very strong and have a long range. He's a good character to use.

**Laurence Blood**
Laurence Blood has a sharp sword, and he isn't afraid to use it!

**Cheng Sinzan**
Cheng is slow moving because of his large size, but he is a strong fighter nonetheless.

**Duck King**
Duck King's style is rough and dirty, and he'll do almost anything to win a fight.

**Wolfgang Krauser**
As the undisputed master of the game, Wolfgang's moves are quick and deadly.

**More Fighters**

**Power Ups**

If you want to keep an edge over your opponent, be sure to take full advantage of the background area in the Fight Screen. By pressing the L or R Buttons, you can leap into the background to avoid an attack. It is also very easy to surprise your opponent when you attack from the background.
In March 23rd, Williams Bally/Midway—the makers of previous arcade classic hits such as Mortal Kombat and NBA Jam—unveiled their latest and greatest title, Mortal Kombat 3. For months, gamers around the country had been talking about the game, but would their expectations be so high as to make the real game seem less impressive in contrast? That's what we wondered as we traveled to Reno, Nevada and the annual ACME (American Coin Machine Exposition) where MK3 was about to take the stage. What we found was a game that delivers much of the hype, exceeds some of it, and is guaranteed to be a mega-success.

The biggest questions on the minds of most players have been what new characters and moves would be included in the game. Thousands of fans have been sending their suggestions to Williams where they will be happy to hear, the MK3 design team had a chance to look at them. Some of the stuff they included helps players during the game, like the combo meters that tell you how many combos you've thrown and the percentage of damage you've inflicted on your opponent. Another added element is the Run button. The idea of the Run button is to speed things up and bring more action into the game.

Designer and programmer Ed Boon described the feeling of some MKII players who hated the defensive stance you have to take when you get into long “fire fights” using special attacks. “In MK3, you can defeat those attacks by charging under them. The entire game is much faster.”

Probably the coolest addition to MK3 comes from the rumor that began about “Animalities” for Mortal Kombat MK3, the Dragon Logo and Midway are Trademarks of Midway Manufacturing Co.
MKII. As much as people will have you believe that Animalities existed in MKII, they didn't. But that isn't the case in MK3. Ed Boon admits with a smile that they couldn't help themselves when it came to Animalities. He revealed one of the top secret Animalities to N.P. "Just like the rumor had it, we made Sub Zero's Animality a Polar Bear." Very cool.

Here's a quick rundown of MK3's features: 14 main characters including 7 new kombatants, Animalities, Babalities, Friendships and Fatalities (more than ever before), bi-level Fighting arenas where you can bust up through the top or down through the floor into a second level, the Run Button, ground combos, one-player multiple path story game, three levels of difficulty, Kombat Kodes, all-new digitized graphics with 50% more image memory than MKII, hidden characters, scrolling backgrounds, and tons of new fighting moves. That should be worth a few quarters.

It started last June and was finished this March—just ten months to create one of the most pre-hyped titles in video game history. The team that Williams threw at this mind-boggling project turned out to have the right mix of talent and tenacity. The talent is obvious when you play the game. There is so much variety in MK3 that gamers at every level will be exploring it for a long time to come. The tenacity you can't see directly, so we talked to the guys at Williams who have lived and breathed MK3 for almost a year.

"It was unbelievable," explained Ed Boon. "If you were to come to the office at 4am on any given day, you would probably find 80% of us there working—and the other guy would be out getting food." We were talking to the whole group at this point, and each of the guys had a story. John Tobais sleeping in his chair. Tony Goskie mentioning that Ed had cleverly brought a futon to the office whereas the rest of them were roughing it in sleeping bags. Seriously, these guys were committed, and like the old joke goes, probably should've been. But the creative fire isn't something that you can control. From concept to completion, they had 10 months and seven people. They had 18 Megabytes of ROM to fill with all new graphics and moves and special features—that's more than twice as much memory as the original Mortal Kombat. They also had extraordinarily high expectations in the gaming community. The pressure was on.

With only 10 months to complete the job, you might have expected them to have taken some shortcuts by stealing materials from MK II, but that wasn't the case. Every element from the graphics to the computer code was created especially for this game. As with all game development, the process began with deciding on what to put into it. John Tobais not only creates much of the character...
As he's done on the two previous MK games, he also creates the stories behind each of the characters. "We found ou back on Mortal Kombat that players reading the stories at the end of the game could really relate to one character or another," says John. "We extended it in MK II and added to the whole mythology. Of course, some players got bummed when we took out their favorite old characters, but we don't want to keep rehashing the same story. We have a mix of bringing back some of the old favorites and introducing fresh new characters." Some of the new characters are related to the old characters in interesting ways, like Sheeva, who is of the same four-armed race as Goro.

While John worked on that end of the design, Ed was sketching out new moves and functions for the game. One of the biggest new ideas was the Kombat Kodes, which allow for almost endless variations. Another matter that Ed had to consider was the game's balance. "We don't want to discourage the average player," he explained. "For instance, most combos start off with two hits of the same button. Even if you've never played the game before, you can learn that. But when you get really deep into the game, you can put seven moves together and really nail the guy."

The Run button was another major innovation. According to Ed, "With the Run button, you can charge in and the aggressor is usually the victor." He's right. This game is much faster than MK II. Blink and you'll lose.

After the preliminary work, the next step was to create video of the MK actors. "Some of the actors are martial artists and some of them aren't," John Tobias told us. "Basically they just have to be real fit. They have to be able to withstand eight hours of jumping, ducking, kicking, hitting and flying across the screen." Tony Goskie also pointed out that many of the moves are first roughed out by John and Ed. "Right. We show them how to fly across the screen," Ed joked.

John added that many moves are unplanned and come from improvisation during the shooting sessions. "We'll just get an idea and go with it."

Improvisation is also found in other areas of the development process. Dave and Tony, who both work on the backgrounds, start work with a roughly sketched idea. Dave uses 3-D rendering programs to create some of the elements like the cool gargoyles on the Rooftop arena, then Tony puts together the finished scene using programs like Photoshop to add special effects and texture. "A lot of times we'll just get ideas as we're working," explains Tony. "Some of the best stuff in the game is created that way." The other guys all said and Ed pointed out that each team member has a lot of freedom to create on his own. They also share inspiration. For instance, Dan Fortenho who has created the music on all three MK games, will study Tony's backgrounds and match the mood.

So, back to the pressure cooker. Once the raw video was shot and digitized, the frames got individual attention. Character frames were limited to 64 colors, but John Tobias and Steve Beran bumped certain colors to enhance clarity and spent endless hours retouching everything by hand. "A lot of people don't realize how much of a roll-up-your-sleeves-and-sweat-it-out kind of work this is," says Steve. "You have thousands of frames to animate and memory management to consider. A lot of people take it for granted that the characters look real and they think that it's just the video. In a lot of other games they just use raw video, but MK III is very clean."

Up until the last minute before the ACM show, final changes were being made to the game. You'll notice that in some of the screen shots the names of some new characters are missing. It's no trick. The names just hadn't been finalized in time.
Williams made a major innovation in MK3 that should keep players coming back to the arcade even after the home versions are released. The six Kombat Kode symbols can be entered before a match if you know the right Kode. The Kodes will come from a wide variety of sources including promotions, home games, the Mortal Kombat movie and licensed products. When you crack the Kode, you get to play with some variation to the game such as with special moves or in areas with new backgrounds. Some Kodes will bring up bosses and hidden characters. Other Kodes will feature different play modes like dark fighting or double-speed rounds. The dark fighting mode only lights up for a few seconds when you score a hit so the challenge is intense. Still other Kodes effect only one part of the game—disabling blocking or throws, for instance. “There’s literally a million variations that we can put into the game,” explains Ed Boon. “We found that a lot of players didn’t like some element of MK II, like throws. So using the codes is a way to disable that function and give players a new way to fight. We’re going to have one code that we call “Old School.” You won’t have any secret weapons so you’ll just have to use punches, kicks and jumps. This way, no character has any advantage.” From now until next fall, Williams will release the arcade Kombat Kodes.

Now that MK3 is out and the consumer versions are underway, what lies ahead for the Mortal Kombat universe? Ed Boon candidly said that the future of MK lies in the hands of the fans. “Actually, we didn’t expect there to be an MK3, but the demand was so great that we felt that we had to do it. Mortal Kombat 4? We’re not working on it now, but who knows. If there’s enough demand, we’ll do it again. If we think there are new things to do, we’ll do them.”

The Mortal Kombat property will appear in new forms, as well. In July, an animated video will be released. The story follows the many subplots of the fighters. The tournament. The Mortal Kombat movie will be released in August at a production cost of $40 million. Ouch! As for the consumer versions of MK3, Williams actively consults on the projects, but doesn’t do the development in house. “They (the developers) send us versions to check out,” says John Tobias. “We play them and send back comments, but we don’t do any of the development here.” John also says that communication between Williams and outside developers has been very good, resulting in some excellent games like MKII for the Super NES. Mortal Kombat 3 for the Super NES and Nintendo Ultra 64 will be marketed by Williams Entertainment instead of Acclaim this time around, which suggests that Ed, John and the other team members will have even more input into the games. Those versions are scheduled for release late in the year, but by that time a new ROM set of MK3 will have appeared in the arcades with new moves and other secrets like secret characters and more backgrounds. It looks as if the development gurus at Williams won’t be getting much more sleep in the future. So the next time you send them your ideas for “Abnormalities” or some other great move. You may want to send some coffee, too.
Kirby has taken a few odd turns during his video game career, most recently trying his hand at puzzles and golf, but now he's back doing what he does best. Though his favorite method of attack won't win him any awards for table manners, he's certainly won the hearts of adventure game players the world over!

You'll face a lot of mini and major bosses throughout your adventure. Defeat them to free your allies and gain valuable Power-Ups. Though there are a lot of new characters in Dream Land, you'll also encounter some very familiar faces along the way.

**ENEMIES TO ALLIES**

Kirby's most useful talent is his ability to absorb the powers of the creatures he eats. You keep the ability until you get hit, or until you drop it by pressing Select.

- **PORCUPINE**
  If you chew down on a porcupine, every day will be a bad hair day! If any enemies get too close, though, you can certainly burst their bubbles.

- **FIREBALL**
  This little object will give you the power to become a fireball for a few seconds, and you won't have to worry about heartburn!

- **ELECTRICITY**
  Feeling a bit run down? Gobble this up for a quick charge—to your enemies, that is. The sparks you give off will keep others at bay.

- **PENGUIN**
  Give enemies the cold shoulder with your frosty breath, turning them into ice cubes before they attack.

- **UMBRELLA**
  Use the umbrella to knock out enemies or break through blocks. It may not look dangerous, but Kirby has a swing like a major league!
The game takes you on an extended journey across the islands of Dream Land, each with its own unique features and dangers. There are limited continues, but your progress is automatically saved in one of three memory files, allowing you to pick up where you left off.

When you begin the game, only one island will be displayed. After you complete each level, the next island in the chain will be revealed.

Another clever feature of this game is the addition of three new allies for Kirby. You'll usually find them trapped within a bag in a boss's chamber. When you defeat the boss, they'll join you on your journey. While you don't eat them, you do gain some of their abilities as long as they're with you.

**COO**

Coo is probably the most versatile of the three.

Coo holds you in his talons, and you direct his flight with the control pad. This way, you can fly and inhale or attack at the same time.

The only place Coo is not effective is in water. Switch friends before any water stages.

**RICK**

Rick the Hamster isn't fast, but he's tougher than he looks.

Like all your friends, Rick adds his life bar to yours. He'll leave if his meter reaches zero, but you'll be able to go on.

Rick can carry you on his shoulders very easily. Don't refuse the ride!

**KINE**

Kine the Fish will help you through the tough water stages.

On land, Kine is, well, a fish out of water! In his element, though, he can navigate through the killer currents with ease.

You can't inhale when in the water, unless Kine is carrying you in his mouth.
GRASS LAND

CHECK ALL THE DOORS
Search all of the doors in an area to find handy Power-Ups like the umbrella. You can use it like a club or a parachute. What other uses can you find for it?

DOOR 1

DOOR 2

FIRST RESCUE
Defeat the boss and hop on Rick’s back for extra power and endurance.

DOOR 3

PARASOL
Use Rick and the parasol to break these blocks and grab a bonus level icon.

APPLE ANTAGONIST
Each stage ends with a major enemy like this one. Inhale the rotten apples that fall from the tree and throw them right back. Dodge any other objects.

Each stage has numbered doors, behind which lie various landscapes to explore. The Antagonist's room is last, marked by a skull. Grass Land is fairly easy, letting you practice your inhaling and spit-er, shooting technique.
**BIG FOREST**

This stage is still relatively easy, but having Coo along gives you a definite advantage. Not only can you maneuver around obstacles, he makes it easier to find items hidden in the high branches of the trees.

**DOOR 1**

**COO CORNER**
Duck in here and just touch the lone enemy to free Coo.

**DOOR 2**

**BONUS STAGE ICON**
Collect this special icon in every stage to later gain access to a bonus stage.

**DOOR 3**

**HEDGEHOG**
Inhale the small hedgehogs and spit them at the big ones. This is tougher than it sounds, since their running patterns vary.

**TRIPLE TROUBLE**
Swallow an enemy while with a friend for combo powers!

**FRIENDLY SKIES**
When you're low on life, fly around enemies.
This is where things really start to get challenging! The terrain varies quite a bit within this stage, and you'll have to make some choices about which friends and powers to keep or change.

**RIPPLE FIELD**

**DOOR 1**

**BETWEEN DOORS**
There's a bonus level after each major door, with a chance for Power-Ups and 1-Ups.

**DOOR 2**

The higher you bounce off the cloud, the better the bonus you'll collect.

**AGAINST THE TIDE**
You must have Kine to swim against the powerful currents and get bonus stars.

Shoot any enemies that get in your way. If you collect enough stars, you'll receive a 1-Up.
KIRBY COMBOS
Eating different enemies may produce different effects, depending on which friend you're with. Experiment to see which combos work best.

HIDDEN DOWN UNDER
Instinct might tell you to jump over gaps or ponds, but this is one time you won't lose a life if you take the plunge.

ANGLER FISH
Your best bet is to go into the battle with a friend and an extra power. Shoot him if you can, or blow the starfish that float by back at him.
Kirby's enemies are determined to put him on ice! The mazes get a bit more complex in this stage, with a few clever puzzles thrown in for good measure. Look for hidden items.

**ICE BERG**

**DOOR 1**

**HOT HAMSTER**
When you swallow a fireball, Rick will gain flame breath. It's worse than eating a triple garlic pizza!

**ICE CUBE**
There's nowhere to run, nowhere to hide. If you don't have a friend, just inhale and spit whatever comes your way.

**DOOR 2**

**POWER TEST**
Be sure to fly into the door at the center of this maze. Gobble up the enemy of your choice and simple the powers it gives you. You'll never know until you try them!

**COO CORNER**
Coo is essential in the next area. Go in the right door and get him, then head to the left door to exit.
This dragon's breath is frosty rather than flaming. Even without extra powers, a few shots from you will melt his resolve!

Take a flying leap as he charges under you.

He's bouncing around, shakes a few icicles loose.

Ready...inhale...FIRE!
As the name implies, there are a lot of gaps and drops in this stage. Kirby can float, but airborne enemies ensure that the skies are anything but friendly. Will you spit at an enemy, only to deflate and fall into a bottomless pit?

**SQUID MINI BOSS**

This squid was left holding the bag, but you'll gladly take it off his hands!

**BE ON THE LOOKOUT**

Besides collecting stars and between-level bonuses, you can also find 1-Up icons in the regular stages of the game. They're rare and sometimes tough to obtain without extra powers.

**GOING UP**

While most of the stages are side-scrolling, some are vertical. When going up, you can't always see what's ahead, and enemies drop out of nowhere without warning.
I DOOR 4

PRICKLY WELCOME

The porcupine power is only good at short range, but it will hurt almost anything.

AERIAL ATTACK

Cool + a porcupine = one nasty combo! One touch will take out most minor enemies.

DOOR 3

FASTER! FASTER!

You must keep ahead of the scrolling screen.

IN THE DARK

This shooting star is not good luck. It is obvious that you inhale and spit stars to make them go faster, but his speed makes it difficult.

Stay in the light when the eclipse comes.

DOOR 5

MORE CHALLENGES

More complex areas await, with more auto-scrolling. Watch for long jumps.

BAD EATING

Take him down with a puff of air or a shooting star.

Don't suck up these little devils!

HIDDEN STARS

Unless you're really pressed, swallow every block you find.

Some blocks contain stars and items.
Here's where your flying prowess will really be put to the test, especially if Coo is not around to help wade through enemies. Search high and low for doors and bonuses.

**JET STREAM**
Let the prevailing winds carry you all the way to a valuable 1-up.

**IT'S IN THE BAG**
Be on the lookout for a chance to beat a mini-boss and free a friend.

**UP, OVER, AROUND**
There's little maneuvering room in this vertical stage.

**BLAST OFF!**
Fireball power lets you rocket straight through much of this stage.

**FADE AWAY**
The cloudy path disappears under you—move it!

**WHICH DOOR?**
Pick a door, any door, all will be rewarding!

**DARK CASTLE**
You'll have to tackle this final stage without benefit of maps or specific tips. Your friends are counting on you to rid Dream Land of these pests once and for all. Who's the evil lord of the castle? There's only one way to find out, and it's not pretty!

**EYE IN THE SKY**
The battle starts predictably, then takes a turn for the worse when the boss returns in a deadlier form!

Wait for him to pop up. The battle is half over, but he's now twice as mean!

Be prepared for more complex mazes and puzzles. Don't wait for the floor to fall out from under you!

Do you have the stomach for the battles ahead?
Secret of Evermore™
COMING SOON TO YOUR SUPER NES FROM SQUARE SOFT
NEW GAMES TAKE ON EPIC PROPORTIONS

Epic games are growing up. Some of these upcoming titles will stretch the size and scope of epic games in untold ways. Epic Center will follow this evolution.

Upcoming epics such as Secret of Evermore, Chrono Trigger and Dragon Quest VI will push the boundaries of epic gaming. Larger memory configurations give programmers more room to add to the complexity of play, include more puzzles and create more detail and richer sound. The age of blocky characters eight pixels tall is coming to an end. Replacing it, epic gamers will find more realistic animation, characters and settings. We are already seeing many games that have added more action elements to the gaming mix. One day soon, RPGs will become as exciting as any action game.

DRAGON QUEST VI

Enix won't release Dragon Quest VI in Japan until the game actually transports players to a fantasy dimension—or so it seems. The latest in the lengthening saga is that Enix has increased the size of Dragon Quest VI to 32 megabits, making it as big as Donkey Kong Country. The 24 megabit version we saw at Shoshinkai last fall looked plenty impressive, with realistic, detailed graphics, orchestral sound and a huge game world to explore, but apparently it wasn't enough. The latest word from Enix suggests that the new and improved Dragon Quest VI might be shown at E3, the Electronics, Entertainment Exposition in Los Angeles this month. Enix still has no official release date for this game in the U.S.

Dragon Quest VI isn't the only iron in the fire at Enix. The RPG masters are deep into development on 7th Saga 2. The original 7th Saga used some innovative battle schemes to add more action to the traditional RPG style of the game. A third adventure—so far the game has no name—is being developed by Quinter for Enix. Quintet also created Illusion of Gaia and SoulBlazer. Also working on this project are some of the people who created ActRaiser. Enix America says the title should be an adventure along the lines of Gaia or Zelda rather than a straight RPG. They also say it is awesome. We hope to bring you a further report on both of these new titles, and a look behind the scenes at Enix development, in the months ahead.

P.T.O. 2 HEADS FOR PORT

Koei hopes P.T.O. 2 will steam into harbor for strategy war gamers this October. For those of you who missed the original P.T.O. Pacific Theater of Operations, the game puts you in command of the American or Japanese Pacific fleet during the second world war. The battle scenarios came straight from the pages of history and the complexity of the game included nuts and bolts details such as procurement. According to Koei, the next P.T.O. will have some new scenarios while some old favorites remain. Improvements should be apparent at all levels of the game, but it will still have a menu-driven interface that may seem daunting to first-time strategy players. In addition to P.T.O. 2, Brandish II will be released this fall, as well.
ENIX'S LONG AWAITED RPG IS HERE!
THE HIT ANIMATED TELEVISION SERIES IS NOW ON THE SUPER NES!

The vile sorceress Morgana has imprisoned King Arthur and the Knights of the Round Table in the Cave of Glass beneath her fortress.

Like a chilling wind, an evil darkness has swept down across Fifth Century England, freezing the bravest hearts in the land. King Arthur and the Knights of the Round Table have been frozen by a wicked spell cast by the witch Morgana. While the land despaired, the legendary wizard Merlin scoured all of time in search of a hero to save the kingdom. Only in the Twentieth Century did Merlin find heroes worthy of the task. Impressed by a young man named Arthur King and a high school football team named the Knights, Merlin drained nearly all of his magic to warp the group back in time to save Camelot. This is a dark moment in history. England pleads for a hero. It is in times such as these that the greatest of heroes are made. Arthur King and the Knights must save Camelot and rescue King Arthur. In addition to restoring order, the team must collect twelve Keys of Truth. Without the keys, the boys will remain trapped forever in Medieval England. Composed of eight areas and tons of puzzles, Enix's 20-megabit password-backed pak will be a hit with fans of the television series and role-playing enthusiasts.

Merlin is Arthur's guide and mentor, providing information and spells for overcoming obstacles they'll encounter throughout the game.

The vile sorceress Morgana has imprisoned King Arthur and the Knights of the Round Table in the Cave of Glass beneath her fortress.

The first key of truth is located in Camelot castle. You must figure out which knight bears the key to Camelot.
Prior to leaving Camelot, Arthur must select two of the twelve knights as traveling companions. This decision is made at the Round Table in the west wing of the Castle. Since all of the knights eventually seek out their own Keys of Truth, game players have the opportunity to select and play each knight at some point in the game. When visiting the Round Table, preview the Knight Profile Screen prior to selecting Arthur’s companions. The profile screen provides the knight’s name, a picture of any special item this knight has collected, and the life, defense, strength, and speed meters for each individual. The portrait of the knight reveals what weapon he employs. Of all the knights at the Round Table, Tone has the best speed, Trunk has the best defense skills and Phil has the best strength. Vary the composition of your party, experiment with each knight and determine which combination suits your style of play.

Arthur King’s football playing companions have been transformed into knights with unique and special powers. In order to return to the future, each knight must recover a Key of Truth and guard it with his life. A Key of Truth can bestow additional abilities upon the party. Tap the talents of each warrior by pressing the Select Button during combat.

When selecting knights, review the statistics for each. In addition to physical attributes, each knight uses a specialized weapon.

Teamwork is the winning attitude! Capitalize on the individual strengths of each of your companions throughout the game.

Each knight must defeat a Warlord to regain a key. All twelve keys must be collected before Arthur and the Knights can return to their World.
The chaos unleashed by Morgana has splintered the countryside into eight distinct regions. Journey with Arthur and the Knights as they reunite Britain and rescue King Arthur. Each quest is packed with surprising twists, turns and eccentric characters, and you must infiltrate and explore every village, keep and castle. A quick warp feature allows players to view a Map Screen and warp past areas they have already explored. Select the Map Screen and move the yellow shield representing the party to a desired location. If the shield shines brightly, the area has been explored and the party may warp to the location. The shield does not shine on unexplored or inaccessible territory. Use this feature to quickly warp into areas adjacent to new regions.

Explore each of the eight regions in Britain and find all twelve of the Keys of Truth.

Use the Map Screen to warp to areas already visited on foot. The shield representing the location of your party shines brightly on explored areas.
Arthur King's first deed in his new world is to recover the Excalibur. Merlin instructs him to receive the sword from the Lady of the Lake. After several encounters with brigands in the forests surrounding Camelot, Arthur meets the Lady, who informs him that he must prove his worth, like the real King Arthur did, before receiving the sword. Northeast of Camelot, high atop Shield Heights, is a young dragon. Since King Arthur's capture, the dragon has run amok in the land, stealing the valuable Pendragon Shield. The Lady explains that she will reward Arthur with Excalibur if he returns with the Shield. On his journey to Shield Heights, behind trees, they discover a hidden glade concealing a magic sword for Breeze. After recovering the four ingredients, Arthur and the Knights return to the

The Lady of the Lake will give Arthur the sword only after he has completed the heroic deed of returning the Pendragon Shield. Arthur encounters a deadly flame wall blocking his path. Merlin recognizes the spell as the work of Morgana and knows of a potion that can extinguish the magical fire. The wizard requires four regents to create a brew, and Arthur embarks on a search of the nearby forest. Wandering the woods, Arthur collects Nightshade, Monkshood, a Hairball and a Newt's eye. Exploding spores and killer bees are just a few of the hazards surrounding Camelot, and Arthur King and his companions exercise caution as they carefully explore the undergrowth. Checking Castle. While Merlin prepares the potion, Arthur remembers the shield and asks Breeze to join him in the journey to defeat the Dragon. Merlin's potion of Fire Protection allows the party to venture further into the unknown. As Arthur and the Knights battle through a fortification, the clanging of swords against armor echos through the rocky outcroppings of Shield Heights. When the last foe has fled, only a rope bridge separates the Knights from the young dragon. Raising its leath-
The young dragon atop Shield Heights is a tough opponent, but using Breeze and the Shield Attack should quickly bring the reptile to his scaly knees. Watch and follow the eyes of the dragon. The beast points his head directly at his intended fireball target. Occasionally the dragon will move his neck in such a manner that his brown underbelly will be exposed to attack. Stand in front of the dragon and use the Shield attack. Keep repeating this until a tender red well has developed on this roaring flamethrower. A few more hits will inflict more damage than the dragon can stand. Collect the Shield of Pendragon from the statue and return to the Lady of the Lake. While the Lady recognizes Arthur's feat, she presents one final puzzle. Watch as the Lady uses a ball of light to trace an outline of a path across the lake. Arthur must remember and follow this path to claim Excalibur.

**ACT 2**

**RECOVER BREEZE'S KEY**

The first Key of Truth is located in the heavily guarded Castle of Tintagel. Merlin instructs Arthur to determine which knight this key belongs to. Because he is the only knight currently equipped with a shield, Breeze seems a natural choice to include in the exploration party. Ironically, the first Key of Truth also belongs to this knight. Arthur sets out from Camelot, heading east to the Castle of Tintagel. A small warlord army greets the Knights of Justice in the shadow of the fortress. Victory on the battlefield does not lower Tintagel's drawbridge, and Arthur decides to venture through the outlying lands in search of another solution. Wandering through the forest, he encounters a blacksmith pleading for assistance. A Warlord patrol demands tribute from him each time he cuts timber for his smithing fire. The smith cannot afford to pay a fee, but he needs to cast a plow for Welton village. The Blacksmith offers him a book of ciphering for eliminating the patrol and returning with an article that proves the demise of the enemy. Later Arthur encounters the Ere of Tintagel, a hermit living in a cave beneath a nearby castle. Ere was once the proud ruler of Tintagel Castle, but now the treacherous Warlord, Spike, inhabits his abode. Ere knows every inch of the fortification, including a secret passageway beneath its walls. The hermit will show Arthur the corridor entrance if he is given the Book of Eld, a sacred book of ciphering. This mystic tome, Ere explains, was stolen from him by the Blacksmith. Angered by the smith’s deception, Arthur returns and confronts the man. The Blacksmith divulges that he did not know who the book belonged to and that he found it in a cave.
FROM EREK'S CAVE

THE SECRET PASSAGE INTO TINTAGEL CASTLE

Erek's secret passage winds through the deepest chambers of Tintagel Castle. Venture through a series of warp points while dodging flame-throwing traps and exploding fun-gi. Warlord Spike's forces will be stunned by the clandestine foray into their supposedly impene-trable keep.

Erek's secret passage winds through the deepest chambers of Tintagel Castle. Venture through a series of warp points while dodging flame-throwing traps and exploding fun-gi. Warlord Spike's forces will be stunned by the clandestine foray into their supposedly impene-trable keep.

Although he admits to no wrongdoing, the blacksmith feels that he has the right to compensation for finding Erek's book. Arthur walks away, thinking about the argument presented by the Blacksmith. Was a wrong committed, or did Erek incorrectly assume that an article lost was an article stolen? Arthur's stroll leads him up and right from the Blacksmith's house. The grass here is cut in an unusual manner, almost as if a trail were hidden... could it be? Curious, the party walks up into a hidden glade. A shiny Warlord Helmet lies in the middle of the grass. Walking up to the helm, Arthur hears the leaves rustle. Ambush! Hordes of black knights rush from the trees! After a brief pitched battle, Arthur returns the Warlord Helmet to the Blacksmith. This is the proof the smith was looking for. Overjoyed, the Blacksmith gives Arthur the book of ciphering and begins to heat his forge. Back at the cave under Tintagel, Erek is just as excited about the return of the Book of Eld. Arthur and the party are granted unlimited access to the dim passageway leading into the catacombs of Tintagel Castle.
Flush with victory, Arthur and the Knights return to Camelot with Breeze's key. Merlin congratulates the party, then pulls Arthur aside. "Arthur," he whispers, "your next quest is to recover the second Key of Truth hidden within Gruesome Keep." Located north of Welton village, Gruesome Keep is a decrepit fortification reeking with blood. Not even the vultures lay claim to the fallen bodies of brave warriors. Merlin cautions Arthur, noting that the villagers might be able to provide the Knights with some assistance getting into the Keep, but that Welton's inhabitants have been acting strange lately. The bearded wizard suspects the work of the witch Morgana. Merlin also divulges the secret of the mysterious statues that guard the borders of each region in the Kingdom. At the top of each statue is a magical blue orb. If the sphere is electrically charged, no one may pass. The wizard built the statues to guard the land against invaders. Merlin deactivates the eastern statues near Welton, allowing the party to pass. Arthur is not welcome in the village. The people turn their backs on the knights and announce their allegiance to the evil sorceress. Confused, the Knights return to Merlin for advice. "Perhaps the villagers would be easier to deal with if they could not recognize you," suggests the wizard. Arthur remembers the Warlord Helmet that he found in the wooded glade. The closed black visor on the helmet would conceal a face. The Blacksmith in the forest knows how to make Warlord Armor, but he lacks firewood or metal for the task. Scouring Welton village, Arthur and the Knights collect wood and iron scraps. Thirsty from his labor, the Blacksmith requests a barrel of cold cider. Arthur finds the cider outside of the village inn. The work complete, the party dons the black armor and journey back into Welton. The villagers rejoice and welcome the knights with open arms. The enthusiasm of the inhabitants in the town is eerie. The villagers demonstrate unwavering devotion to Morgana. Everyone is eager to report their deeds to the masked knights. The Gem maker has made a key to the secret entrance of Gruesome Keep. He provides Arthur with the key explaining that it needs magical energy to work. Mystical powers are the specialty of the old woman living in the northeast corner of the town. She gleefully enchant the key for the party. Pocketing the key, Arthur ventures north of Welton with his group. An obscured trail catches his eye. Why didn't he see this before? The narrow path leads to a trapdoor. The magic key fits perfectly! A narrow underground corridor leads in the direction of Gruesome Keep. This is the secret passage the party was looking for!
TOUGH ACTS TO FOLLOW

ACT 4
BLINDER’S WAY

Wally’s key is located in Castle Sanguine, a fortress surrounded by a maze of forest paths. The journey is mysteriously referred to as “Blinder’s Way,” a maze so complicated it requires a map. Merlin instructs Arthur to break Welton’s spell by collecting the Goblet of Loyalty and two gems, the Emerald of Reason and the Ruby of Compassion. Arthur and the Knights find the treasures and place them on the altar in the Temple of Welton. Free from their spell, the citizens rejoice. Unfortunately, all of the maps and charts in the town are destroyed. The map maker gives Arthur some charred pieces of a map in exchange for sea flowers. He puts the pieces together revealing an outline of forest and road and a bunch of letters. What does “Blinder’s Way” mean? Arthur wishes Merlin could spell it all out for him.

King desperately seeking his lost son. Could this troubled ruler assist the Knights in finding the next Key of Truth?

FUTURE ACTS

STOP MORGANA

Leaning out a window atop Camelot’s highest tower, Merlin stares out across the countryside. Winds from the channel blow out across the grasslands, pointing each waving blade of grass at the receding darkness in the north. The wizard reflects on the progress in the Kingdom. Young Arthur King and the Knights have demonstrated promise, but much work remains. The Warlords have been challenged, but not beaten. Morgana still controls the frozen north. The real King Arthur and the Knights of the Round table must be rescued. Then, with luck, Arthur King and the Knights of Justice will be able to find their way home.

ACT 5
SAVE SQUIRE EVERETT

While Arthur is cleaning up Castle Sanguine, a warlord infiltrates Camelot and poisons young Squire Everett. Merlin recognizes the poison as the Tears of Gorjus, a rare and toxic brew that has only one antidote. “Arthur!” he explains, “you must travel to the Swamp of Zagar and bring back a fragment of a horn from the Zug that lives there.” The Zug is a magical beast, and there is only one like it in the entire world. Arthur must gather the piece without slaying the rare animal. In his journey to the Swamp of Zagar, Arthur encounters many hideous denizens of the muck, including huge, vicious trees with ugly, gnarled faces. The roar of the Zug echoes from every direction in the mist. There is little time to waste.

ACT 6
RESCUE THE GNOME PRINCE

After she is broken of her spell, the Old Woman in Welton reveals that the Warlords have only ten of the Keys of Truth, not all twelve. One of the keys is magically hidden in Gnome Woods, a forest north of Sanguine Castle. The Old Woman gives the Knights a scroll, instructing them to read it aloud in front of an ivory pedestal. While wandering through the forest, Arthur encounters a Gnome...

GREAT RPG FUN ISN'T ALWAYS PRETTY

You’ve fallen and you can’t get up. While battling the Sorceress Alexis, the renegade Varik lost his footing and stumbled into a gaping hole in the ground. The situation is literally the pits. You must venture through a total of forty-two perplexing levels in order to complete the game and right the thousand years of wrong inflicted on the land of Bavalya. Brandish is a 16 megabit, battery-backed, action/RPG for hardcore players. While you probably won’t be dazzled by its graphics, this cart offers tons of intellectual challenge and hours of gameplay.
WARP SPEED, MR. SCOTT

Brandish employs a unique method of movement, shifting the entire maze around the character. More than a few players might be confused by this flashing perspective and incorrectly assume that their character is warping throughout the maze. When you turn, the display automatically shifts 90 degrees, making it difficult at times to determine which direction Valik has rotated. This jerky, sporadic motion takes time to get used to. Thankfully, you don’t encounter invisible teleportation tiles until later in the game. Players may want to change the placement of certain button options. Consult the configuration screen and select a button setting that suits your individual preferences.

CHECK IT ALL OUT

In order to complete Brandish, players need to find their way through the massive forty-two level labyrinth. Valik has a variety of options to help him explore and overcome each of the progressively challenging and difficult floors. In the event that a player saves his or her game at an impossible or very difficult situation, the game offers an Emergency Escape Option. Activate this feature by pressing the A Button while holding down the L and R Buttons. Selecting this option drops Valik’s current level by one.

GRAB OR GLANCE

Use the Pick up/View option whenever you need to grab an item or examine an area or item in close detail.

Open sesame! The lever opened the door and you’re back on your way. Check every wall in the maze whenever you reach an impasse.

You’ve tried all of your keys and walked over every pressure plate, but the door still won’t open. What? Is that notch on the right wall?

Valik is standing in the same spot in both of these photos. The difference is that he has rotated 90 degrees. The revolving surroundings may take time to get used to.

Sticky door won’t open? Sliding pole blocking your way? Nowhere to go? Finding a lever could be the key to solving your problem.

The glove opens unlocked doors, grabs new items and toggles any switches.

Brandish includes an auto-map feature. This option is great for exploring areas containing warp tiles.

Use the View option to examine an item, door, or the strength of an opponent.
**SWING AND PARRY**

Depending on your character's location in battle, Brandish has just one convenient button to both attack and defend in combat. At close range, Valik swings his weapon at his adversary, but if he's too far away, he ducks behind his shield to keep a variety of weapons in his inventory. While most swords eventually deteriorate and break, spells last as long as Valik has Magic Points. Some opponents are immune to magical attacks, so have a weapon ready.

Close in on a monster to engage in combat. Valik raises his shield in defense. He is not in range for an attack. The Ring of Life shown here revives Valik when his hit points are wiped out.

Falling down is the pits. Buy some Steel Balls.

**YOU BETTER SHOP AROUND**

The twisting, dark passages of the underground maze are packed with profiteers who would rather make money off others than search for a way out. Visit and review the inventory of every tool, weapon and magic shop in the game. You can examine each item before you make a purchase. To view an item in a shop, point the cursor at the item and press the Y Button. Even if you decide not to buy any of the numerous wares offered, talk to each shopkeeper. These shops are a great place to pick up information regarding the route to the surface. The inventory in the stores often provides clues to what lies on the road ahead.

Stores contain tools that make life easier. Monsters carry gold—you need to find it. Save your money and buy wisely.

While expensive, magic spells last as long as Valik has magic points to cast them. Experienced players recognize spells as one of the best bargains in the game.

Even if Valik has everything he needs, visit each shop and talk to the store owner.

Unlike this fellow, most shopkeepers provide useful information about the maze.
A-MAZING FEATURES

The corridors beneath Bovalya conceal tricks and traps to share all but the most brilliant players. Even the best equipped warriors rely on their wits and savvy to survive the trip to the surface. Certain pressure plates open doors, but others close off escape routes. Jump over pits and plates that hinder Valik's progress, but remember that a few holes offer refuge from a worse fate. Bash in weak walls with a sledgehammer, and note any extra keys lingering in your inventory. The unique features and challenges of each subterranean level keep players coming back for more.

BEAUTY IS ONLY SKIN DEEP

While it's not the prettiest role-playing game on the market, this package offers an extensive variety of interesting puzzles with a good balance of action. The numerous mysteries, bewitching mazes, and bloodthirsty traps will keep hardcore role-playing fans exploring for hours. If you're looking for Mode 7 rotation or flashy graphics, this is probably not your game. If you're seeking a thought-provoking intellectual challenge, Brandish might have exactly what you're looking for. This ugly duckling has the potential of being a grand swan in the growing pond of great RPGs.

Brandish couples the great role-playing elements of Wizardry V, Dungeon Master and Soulblazer in one huge maze. Check out the Epic Center Strategy section of Nintendo Power Volume 71 for maps through the Ruins area.
Nothing beats a good adventure, and Epic Center Strategies help make every quest a great one!

**Breath of Fire**

In your quest to avenge your sister Sara's death, you'll face all sorts of nasty enemies. Luckily for you, you'll also meet several companions that will help you in your mission. In order to succeed, you'll have to use them to their full potential!

### Finding Karn's Fuse Spells

While Karn's thieving skills are helpful when you want to disarm a trap or open a locked door, his real power lies in his Fuse Spells. While Karn uses one of the amazing spells, he combines the powers of several characters to create a new, super-powered character. While the spell is active, you cannot use the fused characters, and they will disappear from the battle screen if you have them at the front of the party.

#### Finding Shin

You'll find Shin's Fuse Spell in the Town of Gant. Enter the Chief's house on the north side of town and find the chest of drawers in the upper right corner of the building. Push the drawers to the right and enter the cave. Inside the secret room, use Ox to break the rocks blocking your path, then put Karn at the front of your party. Talk to the Wise Man to learn the spell.

#### Using Shin

The Shin Spell combines the powers of Karn, Bo, and Gobi into a super-powered archer. Shin is a great fighter, but he's also a useful character to have leading your party. When he's at the front of your party, he can hit the animals that appear in the overworld and collect the supplies they leave behind. Shin's quick reflexes even let him hit the fast moving birds that Bo always misses!

#### Using Debo

Before Karn can use the Debo Spell, your party must be traveling underwater. When he does use the spell, Karn will join together with Gobi and Ox to form a powerful creature. While Debo can't use Gobi's underwater spells, this strong fighter has the hit points to withstand many attacks. Debo can travel only underwater, so you'll need to use Karn's Revert Command before you can leave the underwater world.

#### Using Doof

Karn's Doof Spell will fuse Karn, Bo, and Ox into an extremely strong giant. When you have Doof at the head of your party, he can move very heavy objects, such as the one you'll find in the Town of Bleak. You can also use Doof to find the B Rang in the Krypt. Use his superior strength to clear your path to his powerful weapon!

### Finding Puka

Return to the Town of Bleak and enter the Fortune Teller's house on the east side of town. Use Karn's Doof Spell to change into the giant, then move the crates in the upper left corner of the building. After clearing your path, fall into the hole to find the secret room. When Karn speaks with the Wise Man, he'll gain the Puka Spell.

---

*Adapted from Nintendo Power*
Go to the Town of Gust and find the Maestro Flute under the Flute Maker's bed. If you have both the Flute and the Cowl, you will be able to speak with the musical people of Tunlan. Return to Tunlan and speak with the Old Woman in the castle on the north side of town.

Enter the uppermost building in the town of Tunlan and speak with the Old Woman.

When you find a Dragon Symbol on the cliff face, you'll need Puka to break your way inside.

**Finding the Bolster**

Before you can awaken Mogu from his mysterious slumber, you'll need to locate the Bolster. When you arrive in Gramor, Mogu's family will ask you to help him, then they'll give you the Cowl. The Cowl will let you understand the people of Tunlan.

**Using Puka**

Using the Puka Spell will fuse Karn, Bo, Ox and Gobi together into a small flying goblin named Puka. Puka possesses the ability to blast open the Dragon Seals that appear on the cliff faces throughout the game.

**Finding Rod 5**

In order to locate the Dragon Equipment for your main hero, you must first locate the Rod 5. You can find the Rod in the Castle of Tunlan. Once you've gained access to the safe in the castle, walk in front of the chest on the far left. You'll fall into a hidden room where two people are walking around near a bed. Move the box that is directly below the bed, then search the area under the box by pressing A to find the Rod 5. Use the Rod to fish in wells throughout the overworld.

Welcome to the Omega Sector—the last line of defense in the Free World. Mild mannered computer salesmen Harry Tasker and Albert “Gib” Gibson lead a double life as secret agents. Abu Aziz, the leader of the terrorist group Crimson Jihad, has stolen several nuclear warheads from the former Soviet Republic of Kazakhstan. When Aziz and his fanatical group threaten to systematically detonate the weapons in cities around the world, Harry and Gib are the only people that stand between Aziz and total nuclear chaos. Guide Harry as he engages Aziz’s army on the ground and in the air.

This 16-megabit, password-backed thriller from LJN provides action game fans with ten levels of nail biting drama. The story line is so large and detailed that this month’s issue only has room to review the first three levels. This game is rated for players ages thirteen to adult.
The Chateau of Jamal Khaled is full of the rich and infamous. Harry has infiltrated the party and now needs to download the terrorist secrets he has learned from a computer upstairs.

Harry, there's no time to Tango. Read me, Partner? Mingle with the guests, but don't draw attention. Find the Passcard and get upstairs, buddy.

Party crashers are shot here, so keep a low profile. The sentries wearing blue suits fire only if fired upon. All of the other guards are trained to shoot first and ask questions after the target stops moving. Gather extra ammunition and firepower by exploring all of the rooms in this huge mansion.

Armed with a handgun and his wits, Harry begins his mission in the bustling kitchen.

Once the computer information has been downloaded, Harry must escape from the Chateau. Unfortunately, the guards have been alerted to the agent's presence. Head for the exit and pick up any hidden bonus items along the escape route. Find a bonus life by shooting at a concealed explosive behind a bookcase, then walk into the bookcase after the device has been detonated. Harry will meet up with Gib in the van after a sprint through a terrorist-filled forest. Using the Diving Shoulder Roll, Harry can turn into a target that's too small to hit.

If you drop three guests, both your mission and the world will be history.

Three Strikes You're Out
While Omega Sector endorses terrorist disposal, it does not tolerate injuries to innocent bystanders. Bad aim can end the mission and alter the Free World.

Pack a Big Punch
The terrorists have hidden weapons, first aid kits and bonus lives in nearly every stage of the game. Be sure to explore all of the nooks, and check all of the walls and furniture for secret passageways.

Blood in the snow! Just make sure it's not Harry's type. Duck and roll through the forest as quickly as possible.

See what's cooking: an Uzi Omelette in the kitchen! Check behind the bookcases for access to secret areas.
This busy mall is full of tourists taking pictures, businessmen talking on cellular phones, and elderly ladies out for a day of shopping. Oh yeah, there are a few terrorists here too. While some civilians duck, most don't have a clue about how to react in a firefight. Watch your line of fire.

Terrorists hide behind potted plants and innocent bystanders throughout the mall. Close in and fire fast. Watch your supply of pistol ammunition and seek cover while reloading. The shotgun is on the second floor.

Human shields are in plentiful supply for these cowardly gunners. Arnold Schwarzenegger never injured a bystander—you shouldn't either.

CONTROL YOUR HEAT

The Lock button allows Harry to face one direction while moving in another. This function is vital in run-and-shoot situations when Harry does not have time to turn around. Check your controller configuration on the option screen to determine the Lock button location. This feature is great for lining up diagonal shots that require split second timing.

Holding down the lock button allows Harry to face his target while in motion.

Intelligence sources have determined that a few terrorists on the shopping mall's upper concourse are equipped with live grenades, and they're threatening national security and the lives of hundreds of innocent shoppers. The explosive power of the charges will wipe out Harry in seconds. To survive, Harry must keep moving and wait to shoot until the bad guy pulls the pin on each grenade. Split second timing and excellent marksmanship can bump the grenade from the terrorist's hands.

A well-timed shot can knock a terrorist off balance, making him accidentally drop a grenade at his feet.

RED OR GREEN, THEY'RE ALL MEAN

Note the shirt each opponent is wearing. Red-shirted terrorists are well trained and require more shots to take out than green-shirted opponents do. Plan your attack according to the strength of the opposition.

This green-shirted rookie won't last long under fire. Select your pistol and drop him.

A gunfight with a red-shirted veteran can be costly. Select your Uzi and get it over with fast.
Harry has scoured the entire mall except for this isolated restroom. Destroy the stall doors to prevent unlimited bad guys from using the facilities. Duck and roll away from the boss, and return fire only when it’s safe. Keep moving at all times.

How many terrorists fit into a bathroom stall? Blast all of the doors off and find out.

This shotgun-toting boss is one mean dude! Use the Diving Shoulder Roll and come up shooting.
This park is crawling with terrorists. Look behind all of the trees—the foliage can conceal both hidden items and bad guys. Harry needs to reach the northeast exit by finding a series of concealed gate keys. Save your grenades for the deadliest opponents.

More bad news, Harry. Aziz has escaped the mall and disappeared into a nearby park. He's fortified the place with bad guys to cover his trail.

While the park is filled with the opposition, there are some good cover areas Harry can use as protection. Hide behind statues, trees, and even lamp posts. Use the hedge corners as cover while watching the shooting patterns of the bad guys. When possible, take out the enemy from a distance. Walk along each hedge barrier and conduct reconnaissance checks of other enemy locations in the park. Shoot at anything strange behind a bush—all of the civilians at this level are in open areas.

Watch the shooting patterns of your opponents—especially the ones that fire and duck. Time your shots to meet the bad guy's next move.

**RAMBO WANNABES!**

Aziz has called in the heavy artillery. This park has a few pumped-up nasties carrying monstrous machine guns. The firepower laid down by these gunners is too much to handle in a high noon showdown, but one well placed grenade can ruin their day. Run ahead of these baddies and duck behind the nearest hedge. These guys are smart enough to figure out how to get around hedges, so don't waste time teasing them, toss them a surprise.

Grenades are the only weapon that can destroy enemies hiding on the other side of hedges.

**ONE KEY TO A GATE**

The wily Aziz ordered all of the gates along his escape route to be locked and guarded. Besides dodging and eliminating hordes of terrorists, Harry must recover each of the bronze gate keys concealed in the park. Be sure to explore every inch of the hedge maze to verify that a key has not been overlooked.

Using a key on the first gate to the right provides Harry with an enhanced arsenal, additional ammunition, and an extra First Aid kit. Be sure to check all of the trees and bushes for hidden enemies and items.
This boss has a machine gun AND a grenade launcher! Duck and dive to avoid the continual fire produced by this monster! Roll and shoot from a distance or Harry will end up as damaged goods. Just hope that you don’t run out of lives before this bad guy does!

Stay clear of the explosive blasts delivered by the grenade launcher.

Max out the meter before going toe-to-toe with this foe.
Searing steam vents, mines, explosive boxes, flamethrowers and suicidal bombers are just a few of the deadly obstacles waiting for Harry Tasker in the underground subway. Intelligence sources suspect that Crimson Jihad has set up a headquarters here. Harry must locate the base and eliminate the terrorist's resources.

Harry has infiltrated a dangerous terrorist stronghold. Thankfully, the noise of the passing trains conceals much of the gunfire and he is able to maintain some element of surprise. Lure guards into stepping on their own anti-personnel mines.

**SWITCH THE TRACKS!**

Harry cannot reach the rest of the hideout until he finds a switch that reroutes the moving subway cars. Further searching turns up the signal switch box, but the handle to turn the switch has been removed. Could this be a set up? Our favorite Omega agent needs to explore further in the maze, blasting away barricades and dodging flamethrowers. There are some hidden alcoves along the train tracks. Does Harry have enough time to run and dodge a speeding train?

Harry found the box to reroute the train, but the handle to the box is missing. Find the second hideout entrance.
**BOMB IN A BOX!**

The catacombs in this dark maze are blocked by large crates filled with explosives. Detonating the crates can open secret doors or defeat enemies.

These explosive crates won't budge, but a single bullet will vaporize them. Stand clear of the blast when the crate goes up.

**WATCH OUT FOR THE 12:05!**

With all of the exits covered, there's one last area Harry has not explored: the region along the tracks. Dodge for cover in the alcoves along the railway. Don't wait for the horn or you'll be too late! Add speed to Harry's progress by using the diving shoulder roll. All aboard!

When Harry's not dodging bullets, he's diving out of the way of speeding trains. We hope.

**GET A HANDLE ON THINGS!**

Harry's adventure dodging the subway trains has led him directly into the heart of the terrorist headquarters. If he finds the subway handle, he can switch the tracks and destroy the enemy's computer network. Unfortunately, the terrorists are aware of our agent's progress and have thrown everything into his path.

**HOT TAMALE!**

If you look in the shadows of this labyrinth, you'll find the glowing pilot lights of lethal flamethrowers. Take these foes out from a distance or shoot and dodge the explosive searing heat. Grenades also work well against this opponent.

Anyone smell gasoline? Shoot and get out fast—slowpokes are instantly incinerated.

**THE PLOT THICKENS**

Harry's mission is far from over. Harry must complete seven more stages before he can confront Aziz in the conclusion of this thriller.
Everyone's favorite blue-collar caveman is back! The action begins in the rock quarry where Fred works, and things are heating up at quitting time. It's a race against the clock to grab as many gems as you can and get to the end of the stage. Besides the usual running and jumping, Fred can swing a club, throw rocks, and roll bowling balls to defeat enemies.

This stage is similar to the first, but the maze of paths is a bit more complicated. Remember that a switch will open up the next area. If you can't move on, chances are you've missed a switch somewhere. Climbing up on things can be a bit tricky—you must press the jump button in the middle of a leap to grab a ledge—so beating the clock won't be easy.
GOAL
He doesn't walk softly, but he carries a REALLY big stick! The quarry foreman is tough but slow, so just back him into a corner and swing as fast as you can.

BREAKING GROUND
Leaping frogs and other quarry workers will get in your way. Break rocks with the club to find items, including extra time and more gems, and keep an eye out for switches to press.

SPRING INTO ACTION
If you jump on the box when the boar runs at you, he'll catapult you up to the ledge.
Fred's crooked boss, Cliff, has arranged to have Pebbles and Bam-Bam kidnapped. They've been carried off by Cliff's pet pterodactyl, which is going to drop them over the city, and it's up to Fred to rescue them. Courtesy of Fred's two feet, you can maneuver the car back and forth under the kids as they fall, and they'll bounce off the canopy like a trampoline.

**Bouncing Babies**
The kids will bounce so high that you'll lose sight of Fred's car. It always lines up with the numbers at the bottom of the screen, so use them as a guide.

Both kids get into the act, and they don't always fall towards the same spot.

**Rooftop Run**
Pebbles and Bam-Bam will sometimes run across a roof and pick up some gems. They move at different speeds, so keep an eye on whoever is out in front.

Be ready to catch Pebbles first, but don't forget to go back for Bam-Bam.

Fred is no King of the Jungle, but he takes to the trees to save Barney. Like Tarzan, you need to climb vines to escape enemies or advance further. You'll often hear boars or mammoths (how did they get up there?) before they appear.

Besides the vines, look for other tricks to getting through. Things like this bird, which you hit to make a bridge appear, may look like part of the background.

You're finally close to finding your pal, but the trees are thick with enemies. Keep moving to the right. Some vines will lead you down from the branch you're standing on, but you won't be able to see what's below you. Be prepared to maneuver left or right as you drop.

These boars will stop at nothing to get where they're going!
**Jungle 2**

Now it's time to move up in the world, but it won't be easy with all sorts of things falling on top of you. Gorillas drop from the branches above, but you'll often see a few leaves fall before they leap.

**Start**

**Goal**

You can clobber the gorillas with your club, but it's just as well to avoid them.

**Spit Up**

At a dead end? Jump into these plants for a quick trip to the next branch.

Fred gets rejected. Maybe a brontoburger would be more to their liking?

---

**Treetop Terror**

It may be wiser to let the animals chasing you run right past. When they do, you won't have to worry about them breathing down your neck. You'll eventually come across a tar pit. As you jump onto each stepping stone, the next one will appear.

Some enemies won't chase after you, so you may be able to avoid them altogether.

You usually go forward, but sometimes you must backtrack. Hop from stone to stone until the path opens.

---

**Coconut Capers**

This cat is caught in a tree, and he's not too happy about it. Whack the log you're standing on to make the coconuts fall onto his head.

There's no pattern to his running, so be ready for anything!
Barney is safe now, but Cliff challenges Fred to follow him to the local volcano. There are few enemies to worry about, but there are challenges aplenty with steaming lava pits and flying fireballs everywhere!

**Volcano 2**

This is another vertical stage, where you're looking more at going up than to the left or right. Instead of vines, there are chains to climb, and you'll also come across moving platforms that run back and forth over deep chasms. Once again, you'll have to backtrack from time to time, but usually not very far.

**High Tide**

You could take your time in the last stage, but not here. You won't notice it at first, but the lava is slowly rising, and it will rise faster as you go up. Luckily, the path doesn't wander too far, so it won't be tough to find the switches. The jumps can be challenging, though, and with some of the moving platforms, you may not see the next stone at first. You may have to make a few leaps of faith!

**Volcano 3**

The volcano is finally blowing its top, and Fred finds himself caught between a rock and a hot place! How did Cliff manage to get out of this predicament?

**Surf's Up**

Look for a surfboard near the starting point and jump onto it immediately. A flood of lava will sweep you off to the right. You'll be able to steer up and down the wave, avoiding obstacles and picking up gems as you go, but you can still fall or get knocked off.

Fred finds himself caught between a rock and a hot place! How did Cliff manage to get out of this predicament?

There's a lot of jumping and climbing in this stage, and unlike other areas, most of the falls will flatten you completely. Take the time to gauge your jumps carefully, especially when leaping across stones that appear and disappear in patterns.
Fred has made it back to the quarry safely, but Cliff has gotten there ahead of him. Wilma has become his latest hostage, and Fred must go her rescue! The quarry is crawling with Cliff's goons, and there are more enemies than ever to worry about.

The High Road

There are a lot more gems along the upper paths than down below, and you may be able to avoid some of the enemies that way. Try to make the long jumps between the high platforms. The going might be easier for you along the top path.

Machine 2

You're now stuck inside Cliff's cave-making machine, and the trick is not to get turned into somebody's front door! There are a lot of things that will crush, squish or pulverize you, so you'd best be patient and look for their patterns before proceeding.

Sabotage!

As you get further and further into the machine, the workings will become more and more complex. In the conveyor belt maze, you must throw rocks at the buttons to open up new lengths of track. Avoid the whirling blades by ducking under and jumping over them.

Machine 3

You're nearly at the heart of Cliff's machine, but he's not about to give up yet! He's thrown it into high gear, and it will take all your skill to complete the stage before the timer runs out. Will you be a hero, or will Bedrock be buried under a ton of cement? Get going, Flintstone!

Fire Hazard

When the flame turns to smoke, push the boulder past it, then use the boulder to jump to the next ledge.

Mega Man Uppercut

Those players who have played Mega Man X may remember the secret trick that allowed Mega Man to throw a fireball like Ken and Ryu's from Street Fighter II. The same agent who discovered that trick has found another Street Fighter II crossover in Mega Man X2. This time Mega Man can learn the Dragon Punch, but first you must find all of the Sub-Tanks and all of the Heart Tanks in the game. Once you've found all of the Power-Ups, go to the Third X-Hunter Stage and work your way to the halfway point. Here you are given the choice of going up or down. Lure one of the bats in this area to the right, then freeze it using the Crystal Hunter while it's under the upper ladder. Use the bat to reach the ladder, then work your way to the right and destroy the shield robot. Stand where the robot was and freeze the bat that is attached to the ceiling, dropping it to the spikes below. Jump to the frozen bat, then to the narrow platform on the right. Climb the stairway to the top and work your way to the right, where the spikes appear in the ceiling. Charge the Flame Burner all the way, jump up and release the button. When the flame stops, you'll drop to the spikes unharmed. You'll need to Mid-Air Dash as soon as possible and land on the small platform on the left side of the room. Now, if you slide down the left wall while holding Left on the Control Pad, you'll fall into a secret room. Inside you'll receive the Dragon Punch power from Dr. Light.

Quick End

If you find yourself stuck in Secret of Mana, you can quickly restart the game with this simple trick. Hold the L, R and Select Buttons on Controller I, then press Start. The game will reset, and you can restart the game from where you last saved. This code may not seem like much, but it can save you the trip to the Reset Button.
**From Agent #910**

**Worm Cheats**

Although we've already printed several codes for Earthworm Jim, players keep finding more! If you need some extra assistance after you've already started playing, you can enter any of these special codes while the game is paused. After you correctly enter the code of your choice, continue playing with your new-found gear!

While the game is paused, press
A, A, B and L together, A, X, B and L together, then X

Pause the game, then press A, B, A, X, B, X, X, B, X, A, A, X and X

Press Start to pause the game, then press B, B, X, X and Y together, A, A, A, then A

When you enter this code correctly, you receive one Extra Life in reserve!

When you resume playing, you will have eight Plasma Shots in reserve!

Entering this code correctly will give one extra Continue

Running out of ammo will never be a problem again!

Wait until the Title Screen appears, then press X, A, B, A, Left and A

When you enter this code correctly, you receive one Extra Life in reserve!

Press Select to pause the game, then enter the code to skip to the credits

**From Agent #991**

**End Credits**

If you don't feel like putting in all of the work in order to see the end of the game, you can use this trick to skip straight to the credits. Begin a new game and select the Story Mode. When the action begins, press the Select Button to pause the game, then press Up, X, Left, Y, Down, B, Right, A, L and Y on Controller I. When you resume playing, the game will skip directly to the ending credits of the game.

**From Agent #202**

**Dali Llama**

All respectable fighting games should have a boss code, and Brutal is no exception! If you want to try your hand as the powerful and wise Dali Llama, wait until the Title Screen appears, then quickly press X, A, B, A, Left and A on Controller I. If you hear a tone after entering the code, you will be able to choose the Dali Llama when you begin playing.

Hidden Team Codes

If playing through the season as a normal, run-of-the-mill, professional football team quickly bores you, then these codes should make your day! We have found several hidden teams in NFL Quarterback Club that can only be accessed using these secret codes. To use any of these codes, begin a new game and wait for the Main Menu to appear. Enter the code of your choice, then go to the NFL Play Mode and select a pre-season game. Scroll through the teams until you locate your special team, then start playing!

Jaguars and Panthers

At the Main Menu, press Up, Down, X, Y, Left, Up, B, A, Down and Y.

When you play a pre-season game, you can play as the Jaguars or the Panthers.

AFC and NFC All-Pro Teams

At the Main Menu, press B, Up, Left, A, X, Right, Up, Right, Up and B.

Now you can lead the AFC or NFC All-Pro Team in a pre-season game.

Acclaim and Iguana Teams

When the Main Menu appears, press Y, A, X, Y, Down, B, Left, Y, Up and Right.

Choose either of the programmer teams then take to the field for a pre-season game.

Cashing In

In order to build the awesome war machines of MechWarrior, you need to gather cash as fast as you can. Agent #309 has found a way to collect an extra million C-Bills with hardly any effort at all. First, start a new game and go to the GHQ and take the following four missions in this order: Riot Duty on Zhada, Riot Duty on Solaris, Assault on Quilon, and Siege on Dalview. If you complete all four missions without even talking to Cearle, go to the Zero-Zero club and speak with Larmen Sholest to receive the C-Bills.

Pac-Codes

If you are a fan of either of the classic games Pac-Man or Ms. Pac-Man, check these codes out! Agent #233 has discovered a few secret passwords that will let you access several different secret game modes in Pac-Man 2: The New Adventures. When you begin a new game, enter any of the passwords listed below on the Continue Screen to automatically go to the one of the secret areas!

Enter the Password BGMRQST to go to the Sound Test.

Enter the Password PCMMDPW to play the original Pac-Man game.

You can access the Time Trial Mode by entering the password TRLMDPW.

The Password MSPCMND will let you play the Ms. Pac-Man game.

The first stirrings of a new order in video gaming arrived with the arcade phenomenon of Street Fighter II. Overnight, it seems, multi-player games became the hottest ticket in town. When Hudson Soft introduced the first multi-player adapter along with the Bomberman game, the stage was set for a full-blown revolution.

Since then, many of the biggest Super NES hits have combined great game play with the competition factor: Mortal Kombat, NBA Jam, Street Fighter, MK II, Madden '93, NBA Live '93, and Ken Griffey Jr. Presents Major League Baseball. Multi-player action was clearly a hit, but it wasn't always practical to get players together in one place at one time. For those players who lived far from their gaming friends, the thrill of competition was not only impractical, it was impossible. For many gamers, the promise of multi-player action remained a hollow one at best.

Then along came a group of gaming groupies with a simple but elegant idea: they would build a game modem that would allow players to challenge opponents no matter where they were. The concept of connecting game machines over the phone was nothing new, but the people at Catapult Entertainment were determined to see their vision become a reality. Catapult took the whole process a step further by providing a wealth of services for players who hooked up to the gaming network.

To date, the Beta tests in selected cities around the country have met with overwhelming success. XBANDers have been averaging three or four matches each day and they leave each other in excess of five messages per day. The volume of traffic on the embryonic network has exceeded all of Catapult's early projections. Even though the national launch of the XBAND is still a few months off, gamers in New York, Los Angeles, San Francisco, Atlanta and Dallas will be able to get an early taste during the Super NES XBAND Beta test this summer.

**A DAY ON THE XBAND**

So what really happens on the XBAND? Let's follow a typical session. Say you're sitting around the house when suddenly you get an itch to play NBA Jam T.E. No one else is around, so you think
“XBAND” and plug the XBAND modem into your Super NES. Next, you pop your copy of NBA Jam T.E. into the modem. (The only other connection is for the modem, which has a line that plugs into any phone jack.) By turning on your Super NES, you automatically connect with the XBAND Network and a cool menu comes up on your screen with music and animation. Now you have a choice of setting up a match, cruising through the stats to see how you stand on different games, reading your e-mail from XBANDers or anyone on the Internet, updating your player list of preferred opponents, checking out the XBAND News to learn about network events like contests and new games that are supported by the system, or reviewing your network file to see how many game credits you have left this month. Of course, you ignore all of that and bring up Bandwidth, the online magazine with daily news and tips from Nintendo Power. After checking out the news and being amazed by the graphics, you decide it’s time to get some game action. You select the Challenge option and wait about a minute before an opponent comes on line. Since you restricted your playing area to your home town, you won’t even have a long distance charge. The next screen shows your opponent’s XBAND persona chosen from 40 characters—a grizzled bum with one eye and the ID name, Killer Elite. Finally, it’s time for the match! You battle it out with all the moves just like in a regular NBA Jam T.E. game, one-on-one. When it’s all over, you input a taunting parting line to the poor sap you thrashed. “Too bad you lost that eye, Killer.” Then you’re ready for match number two.

TECHNOLOGY TRANSFER

The Super NES XBAND makes use of a 2800 Band rate modem with eight megabits of internal ROM and 64K of RAM. When you call into the XBAND network, the modem receives download signals from the network for updating text information. The sound and special graphics have all been preset in the ROM. The image of Diddy Kong and the logo for Nintendo Power are a permanent part of the XBAND’s memory along with other logos and pictures, but the articles in Bandwidth are downloaded from the network computer. Animation routines that ripple text or make a logo fly across the screen can be easily downloaded since the routines don’t take much memory. Sound and music takes more memory, so the four themes and dozens of sound effects have been stored in the ROM. When you want to play a game, the network downloads a set of commands to your modem’s RAM chip. These commands act as a patch that interprets the signals from your Controller and from the signals received over the phone line from your opponent’s Controller. The patch synchronizes the two games and sends Controller data with such speed that you’ll never notice any slow down, even if you are playing someone who is thousands of miles away.

The XBAND also includes a SmartCard slot. This feature will make it possible to sell game session credits on collectible SmartCards that the system can read. It is also possible to update game information using a SmartCard if the original game is designed with this feature in mind. Looking down the road, Catapult is working on adding the capability for more than two players to join in during multi-player game sessions from separate points. The people at Catapult think it is just a matter of time before they put together a phone network that would allow a sort of game conference call.
LET THE GAMES BE PATCHED

Catapult programmers have been busy creating patches for some of the most popular multiplayer games on the market. The initial offering for the Super NES will include the following titles: NHL '95, Ken Griffey Jr. Presents Major League Baseball, Mortal Kombat II, NBA Jam Tournament Edition, Super Street Fighter II, Madden '95, NBA Live '95. Other probable early games will include Comanche and Bomberman. Future games may be created with patches already in place from the developers. In fact, Catapult has already delivered specs to many Super NES developers and some of them are already working on games that take the XBAND into account. One can imagine a time when special XBAND games might not just include two or four players, but full sports teams or a dozen adventure players in a single game. Beyond the Super NES, Catapult's next level of development is turning to the high end of gaming with the Nintendo Ultra 64. (Be sure to check this month's Pak Watch for the announcement of another mega hit that will appear only on the Super NES and will support the XBAND.)

THE COST OF XBANDING

The XBAND is priced around $50 in current test markets, but that price may drop during the national launch. The monthly network fee of $7.95 includes 32 game credits. Each credit, worth about a quarter, lets you play one match and download news from the network. Additional credits cost about 15 cents, but you can give yourself a monthly spending limit so you don't blow all your money on XBANDING.

XBANDers will also be able to plug in a full-size keyboard accessory some time in the not-so-distant future for between $30 and $40. The guys at Catapult already have keyboards for their systems, which can result in some pretty amazing message speeds in comparison to those who are using the cursor to type messages.

NINTENDO POWER SURGES ON BANDWIDTH

Nintendo Power on Bandwidth will give you the quickest game update online. Daily news items, tips and game reviews will keep you up-to-date on the latest news concerning you and the world of Super NES gaming. Our special focus, of course, will be on the XBAND and multi-player games. Power will be the only place where you can go head-to-head with the pros at Nintendo in specially scheduled Game Counselor Challenges. We'll also keep you informed and interactive with information on forming gaming clubs and fantasy sports leagues. We'll keep readers of Nintendo Power connected with news of online gaming and top scores on the XBAND. Power and XBAND will be the place to hang out starting this summer.
THE FACE OF THE XBAND

Joey Stocklein, formerly an interface designer for Apple Computer, an instrumental member in the development of the XBAND network, talked to Power about the XBAND. The first order of business for Joey and the Catapult team when they began the project back in April of 1994 was to recognize just what they were trying to create. “There were all these guys from Apple working on the project,” Joey explained, “so we had to keep in mind that the XBAND was for gamers, not for computer users.” At Apple, Joey developed next generation interfaces for the Macintosh, but there were limitations imposed by the traditions that have grown up around Macintosh and PC interfaces. “Here at Catapult, we were doing something no one had ever done before. We had to think about everything from the gaming perspective and create an interface that reflected that. One of the things we focused on was animation. You’d be surprised at how little animation you find on regular computer interfaces, but the XBAND has stuff floating all over the place, just like in a videogame.”

Joey’s satisfaction with his XBAND baby is well deserved. The XBAND interface really comes alive. Users also come alive in new ways. Gamers make friends, join clubs, and play in tournaments all through the network interface. Over time, Catapult is confident that it can keep up with needed changes. “We can download what we need, when we need it,” says Joey. “We’ve learned so much already from the feedback we get. It’s incredible how much Xmail comes in every day.” The Super NES XBAND has benefited greatly from the feedback received from the original Genesis XBAND test, making the Super NES much more polished. Finally, Power asked Joey if he and his colleagues at Catapult log on and play the users, you bet. If you want to challenge Joey personally, set up a match with Buck Satan—his personal ID.

Super NES XBAND vs. Genesis XBAND

Here’s another reason to pack up your old Genesis and put it in a dark, dusty closet where it belongs. The differences between the Super NES XBAND and Genesis XBAND are dramatic. The Super NES modem contains more RAM and ROM memory, resulting in far more and much better graphics. The amount of animation possible on the Super NES unit is greatly enhanced. And the sound, as you know, is far better on the Super NES. The best reason of all, of course, is that the best multi-player games are on the Super NES. Let’s face it, with better graphics, sound and play control, the Super NES wins this head-to-head hands down.

SERVICE WITH A BLEEP

The network features of the XBAND cover most of the areas that you find in other computer online services like America Online and CompuServe. The interface, designed by Joey Stocklein at Catapult, uses a simple menu system that has been refined over months of testing. The graphics are fun but cool, and much more sophisticated than you might expect. Because graphics are already stored in the ROM, you won’t have to suffer through long download times. It’s fast, friendly and fun. The menu categories include Challenge, Player List, Mailbox, Stats, and Options. In the Challenge area, you’re matched to a player whose experience level is close to your own. Select the Player List to compete against a friend or specific opponent. In the Mailbox, you can send and receive e-mail and read the online newspaper articles. The Stats category keeps track of your rank for each game you play on the XBAND. Under Options, review your account restrictions, phone and keyboard options and credit status. You can also create and change Player IDs—names, faces, and Passwords. Navigating through the menus is a simple matter of guiding a cursor with your Controller and pushing a Button to activate commands.

THE REBIRTH

A shadow falls across the sun, turning bright day into murky twilight. A dog howls plaintively in the distance, as the wind blows just a bit colder. Are these merely odd happenings, or do they signal the rise of... the Warlock! While it may seem more suited to a Halloween release, Warlock will be welcomed by horror fans no matter the season. Most action games involve familiar fantasy and sci-fi themes, so Warlock's 'thriller' atmosphere is a breath of fresh, chilly air.

A THOUSAND-YEAR-OLD THREAT

This one-player action pak is loosely based on the second of a pair of horror films bearing the Warlock title. The films were intended for mature audiences, but Trimark Interactive has done an admirable job of making the game suitable for a wider audience, while retaining the excitement of the movies. As the latest in a long line of druids, it's your duty to recover six mystical stones before the reborn Warlock can consolidate his power. In this time of chaos, only the power of the stones can thwart his evil ambitions. If you fail in your quest, the world will suffer in darkness!
THE RUNES
Each of the six stages is divided into two or more areas. After finding a stone or completing a major area, the game will reward you with a “rune,” or password. With the stones scattered throughout time and space, you'll have to face a myriad of challenges in many different settings.

THE BIRTH STONE
After you recover each stone, an icon will appear in the appropriate space in the bar at the top of the screen. You won't have trouble with this first stage, but you should take the opportunity to practice basic play control.

THE DRUID STONE
The Druid Stone is also relatively easy to reach. You will, however, encounter tougher enemies in the caves. Here's your chance to practice intermediate techniques, like timing your rolls right and shooting at an angle.

THE SUN STONE
The triangular Sun Stone is next, and the castle is where you'll find the first truly challenging area and puzzles. The enemies are also much tougher, and they'll require more advanced strategies to defeat.

THE TREE STONE
You won't get to leave the castle just yet, as the Tree Stone is also nearby. The mini-bosses here are particularly strong. There are a lot of power-ups around, but you'll have to cope up with creative ways to get them.

THE WIND STONE
A maze may not be your first choice as a place to spend an exciting night out, but it's where you'll find the Wind Stone. The enemies may be easier to defeat than those in the previous stage, but there are a lot more of them.

THE GIANT STONE
The last leg of the quest will take place at the top of a mountain. There's an option for setting the difficulty of the game, but that final stage should provide quite a challenge for most beginning and intermediate players.

THE MOVES
The characters in this game are large, the animation smooth and the play control easy to master. You can run, jump, crouch, roll and fire bolts of mystic energy. There's even a protective orb that follows you automatically. Though it normally floats above your head, if you stand still, you can make it fly in various defensive patterns around your body.

THE DRUID SPELLS
As you proceed, you should collect as many spells as you can, which appear as icons on the ground. The display at the top center of the screen shows your general health (the face deteriorates as you take damage), while the icon to the right shows which spell you have currently selected. Use the L and R buttons to scroll through your spells. Each icon you collect is good for only one use, but you can hold multiple copies of any spell.

THE GiANTS
There are also a number of powerful offensive spells. The skull and red vortex icons both represent Eradication, spells that target multiple enemies. There are other useful spells out there, but you'll have to discover them on your own.

HEALING
The potion icons provide partial healing, while the face icons do double duty. These icons can restore you to full health, and they also count as the number of lives you have left, so use them wisely. No more losses, no more continuous.
The quest for the Stones begins in a sunlit village, where peace is suddenly shattered by the arrival of the Warlock and his minions!

**BRIDGE OUT AHEAD**

The sky suddenly turns dark as the Warlock challenges you to a joint soooocent game of hide and seek. You can't hurt him yet, so don't waste your energy. He'll blast the bridges to your path, but you can jump the gaps easily.

**DO SOME LIGHT READING**

Why would the Warlock enter the library, unless there's something here that he wants? Search the aisles and zap the zombie librarians. They'll get up after your first attack, but not the second. Fire away!

**YOUR FIRST BATTLE WITH...HIM**

This Warlock will teleport from side to side, tossing lightning bolts all the while. If you stand in one place and fire quickly, you'll block his bolts and damage him enough to send him packing.

**STONE ONE**

You now find yourself in a garden where the creeping vines more than live up to their name! The garden is darkly tempting, but the true path lies beneath the earth.

**GET A LIFE**

Before you enter the cave behind the waterfall, go all the way to the right and get the life icon. The jump to the last platform is extra long, but you can destroy mutant bugs to reveal "floater" icons. Step on the icons to soar over the pond, using the control pad to guide your flight.

**EARTHQUAKE**

Always explore the area you're in, even if the main path seems to go in only one direction. The Earthquake Rod lies off the beaten path, in the lower depths of the cave. This intriguing artifact is actually a powerful spell-icon, so you should find it before moving on.

**UP FIRST**

The Druid Stone waits in an alcove at the end of the upper right path. Once you grab it, retrace your steps back to the left and drop into a gap. Follow this passage down and right to the exit. Destroy the fire-breathing serpents along the way by firing your bolts at an angle.
The search for the Sun Stone brings you to a ruined castle. You're surrounded by statues and armor, but are these figures of stone and metal as lifeless as they seem?

**SHOOT AND JUMP**
If you can't get to the platforms, then bring the platforms to you! Use your angle attack to blast them until they fall. They'll stand up just high enough out of the water for you to use them as stepping stones.

**GOING UP**
The castle is an incredible maze of dead ends, switchbacks and elevators. You can call elevators, open force fields and activate any number of devices by shooting switches. Once you call an elevator, you may have to shoot the switch a second time to get it moving. You may also see a few more floater icons in strategic places... or you may not! Search thoroughly!

**A MAZE OF SWITCHES**
Always keep an eye out for switches to shoot. Though you may not see an immediate result, chances are the consequences will not be bad. Some show up in inconvenient or hard-to-shoot places, so practice your timing and aiming. If you can't progress, you've probably missed a switch somewhere.

**THE STONE**
You may think that you've reached a dead end, but don't trust your senses. The entrance to the stone's resting place is disguised by protective spells, so it looks just like an ordinary wall. Try walking into the walls at the ends of passageways.
You've completed half the quest, but the Warlock will no longer underestimate your power. He's also searching frantically within the castle for the Tree Stone. Within the castle? Perhaps not!

Organ Grinder
Making beautiful music is not the point of this devilish instrument! Instead, it spits out several persistent phantoms. Quick reactions and good aim are the keys to winning this battle as they dodge and dive past your defenses. It will take at least five solid hits to put these ghosts to rest.

Deadly Spheres
These floating globes will assault you one at a time, each with a unique weapon and attack pattern. Some of them fly at levels and angles that are almost impossible to hit with your mystic bolts. This is one situation where your protective orb can be used as an effective offensive weapon.

Stone
Your quest for the stones continues outside, if only for a brief time. You must now search in and around a cemetery, but the residents don’t take kindly to intruders!

Skeletons
They’re grinning, but they’re anything but happy to see you. These spindly warriors are tougher than they look, and they can block even continuous fire, so time your bolts carefully. Wait for them to let their guard down before you shoot.

Getting By
The slime creatures are difficult to target, and you may not be able to hit them unless you get close. Use “hit-and-run” tactics to avoid taking too much damage. Your orb can damage them, but it might take too long.
**FIVE**

**SHOOT THE BIRD**

This looks like an impossible jump, but it's really another case of not overlooking the obvious. Shoot the bird for a floater icon. Since the jump is so high, let your body reach the top of the jump before steering to the right.

**STONE SIX**

The last stone is secreted somewhere amongst the cracks and crags of a looming mountain. The fate of the world hangs in the balance. Do not fail!

**STOCK UP**

This is a very challenging level, so collect every icon you can find. Backtrack and explore the platforms and passages around the starting point as much as you can. Among other things, you'll find healing potions, Eradicate spells and an Earthquake Rod.

**LOW ROAD**

You'll eventually reach a point where there's only one route, but you can walk above or below the platforms. The upper path exposes you to aerial attacks, while the lower path offers some protection. You can also use the orb to attack someone from below.

**FINAL CONFLICT**

You have all the stones, but you must face the Warlock in battle one last time. He'll transform into a hideous creature, shooting fireballs and summoning Flame demons to aid him. You must try to dodge his worst attacks, but it will be impossible to avoid all damage. Study his attack pattern, and don’t let yourself get caught on the edges of the platform. One blast of his fetid breath will send you spinning into the lava, taking all hopes of victory with you!
Haunted Holiday

PRE-TRIP JITTERS!

Porky Pig, the hardest working Toon in show business, finally decided to take a vacation. His friend, Bugs Bunny, was so glad to hear Porky was finally going to take a break that he treated him to a spicy feast at their favorite restaurant, Five-alarm Al’s Chili Emporium. But later that night, as Porky was drifting off to sleep with visions of vacation spots and rumbles from his upset tummy, the trouble began. Once asleep, Porky found himself in a haunted holiday nightmare—with only you to help him escape!

THE HUNTED WOODS

Our favorite stuttering pig's N-H-N-H-NIGHH-BAD DREAM BEGINS JUST DOWN THE ROAD FROM HIS HOUSE IN THE HAUNTED WOODS. THERE, PORKY WILL RUN INTO NASTY CROWS, SCURRING LEFRECHAUNS, AND BUBBLING CAULDRONS WAITING TO PUT AN END TO HIS VACATION PLANS. BUT IF HE CAN AVOID THESE DANGERS, HE'LL FIND SOME TASTY TREATS FOR EXTRA POINTS AND EXTRA LIFE!

TERRIBLE TREES

Don't let the menacing trees scare you—they're harmless. In fact, PORKY can climb their creepy limbs to find some helpful treats. It's no piece of cake, but with a little help from you, he can do it.

WHEN PIGS FLY!

You'll have to see it to believe it, but PORKY can float with the help of a hidden helium cartridge. You'll find the cartridge at the end of a line of blinking cupcakes at the bottom of an underground cavern. PORKY can then reach a hidden heart and two I-Ups before he heads to the next stage of the level. But be quick—the helium won't last for long.

SECRET WEB

It takes some hard work to get to, but don't pass up the secret cavern you'll find hidden inside this mysterious hole. Once inside, PORKY will find some energizing treats caught on a super-sized spider web. But be careful—the spiders don't take kindly to uninvited guests!

A CHILLING FIELD

Don't let the warm smile of this frosty ghoul fool you—he's no friendly ghost. The boss of the Haunted Woods has some surprises that PORKY won't be too happy about hidden beneath his hat!
Mosey on into Dry Gulch—if you dare! This troublesome town is filled with thorny tumbleweeds, caged creeps and horned hooligans all bent on gettin' Porky out of town by sundown!

**TUMBLIN' TUMBLEWEEDS**

Like most dusty old western towns, Dry Gulch is filled with tumbleweeds doing what tumbleweeds do—tumble. Though they can be a real thorn in Porky’s side, they can also help him reach the top of the town’s sagging buildings. If you can time it right, Porky can ride the tumbleweeds for a spell, then leap off to find some waiting treats—and a few secret bonus rooms!

To get to this Power-Up Porky will have to wait for some help.

A well-timed jump off a tumbleweed will give Porky an extra boost.

Greed can get the best of Porky if he isn’t careful.

**MAKE A WISH**

This is Porky’s kind of wishing well! Inside, he’ll find a cache of cupcakes. But be careful. It’s a long drop, and the bottom of the well is trouble. Stay to the right to avoid the icy water.

**BONUS BARREL**

No wonder Dry Gulch is all dried up! This rain barrel doesn’t have a drop of water in it—but it isn’t empty!

SHOOTIN' SAM

Confound it! It’s the boss of this here town who looks suspiciously like that bothead Yosemite Sam. He’s a rootin’ tootin’ shootin’ cowboy, but don’t let his blazing guns scare you. With a little ingenuity, Porky can beat this one very polecatt.

The boss’s loud shooting turrent will only hurt Porky’s ears.

When Sam aims, jump on the seesaw. The skillet will fly up and deflect his bullets right back at him!

The best of Porky if he isn’t careful.

Once inside, Porky will be glad he went to the trouble of climbing up. He’ll need a few cupcakes to keep his strength up.
AHH, there's nothing like a relaxing day at sea. That is, unless you're sailing the haunted waters of Atlantis. Porky must avoid diving turkeys and flying barracuda while aboard his little raft. Then, just when he thinks he's out of trouble, his raft decides to do its best impression of a submarine!

**SHIPWRECK!**

In the murky depths of the ocean, Porky will face the bloated blowfish that guard a sunken ship and the lost city of Atlantis. As Porky makes his way through the ancient catacombs and perilous sinkholes of the city, he'll need to find a few secrets if he hopes to make it back to the surface.

Porky will have to take the plunge inside this creaky ship in order to get to the bottom of this haunted sea nightmare.

**FOLLOW THEM**

These hard-to-see arrows will help Porky navigate his deep sea adventure, so keep your eyes peeled. But don't be too hasty. Sometimes Porky can find some extra bonus items if he does a little exploring.

This arrow points to an important hidden passage.

**DOUBLE BUBBLE**

Porky can make good use of these bubbling sea creatures. On this tricky section, you'll need two bubbles to avoid a few unpleasant surprises on the way up.

To avoid a spiky end, you'll need to make some fast jumps.

**T-T-THAT'S NOT ALL**

After surviving the perils of Atlantis, you'd think Porky would wake up, but this nightmare doesn't ever seem to end!

**OLD MINES**

This tunneling adventure will take Porky into the confusing catacombs of an abandoned mine—littered with dangers!

**THE ALPS**

From the frozen tundra to the dry desert, the extreme conditions of the Alps will prove to be abominable for Porky.

**THE CASTLE**

Finally, Porky faces the toughest adventure of his nightmare: the haunted castle of Count Duckula! Of course you know, this means war!

Show Some Style
Choose your favorite Game Boy color and tell the world why it rocks. Ten winners will have their awesome art splashed in a future issue of NP. It's simple. All you have to do is make us an ad. If you get really creative, you could win one of the new color Game Boys from the Play It Loud series. Show some style with the green, yellow, black, red, clear or traditional gray. You can hype 'em all, or pick your favorite color.

In Your Own Image
Your color Game Boy advertisement can approach the subject from any angle, but the medium is a print ad. Sorry, no video. Your art is important, but so is your message. Advertising blends images and words to sell a product, so that's your challenge. A discerning panel of Power Editors will choose the winners from all official entries. We'll judge all aspects of the ad: art, copy, creativity, impact.

10 Grand Prizes
The artists who write and create the ten best ads will receive a Play It Loud series Game Boy in the color of their choosing.

Power Stamps
Just for sending in a color Game Boy ad, the first 500 entrants will receive four super Power Supplies stamps. So you have nothing to lose.

Rules
Send your entry to the P.O. Box address listed below by June 15, 1995. All entries must include the name and address of the artist. Send one entry only per artist. Entries may win one of the Grand Prizes and one secondary prize. Valid entries will be judged on or before July 15, 1995 and 10 color Game Boy Grand Prizes will be awarded to the 10 winners. The winning entries may be published in a future issue of Nintendo Power Magazine. The first 500 valid entries will receive the secondary prize of 4 Super Power Stamps. All prizes will be awarded. All entries become the property of Nintendo of America Inc., and cannot be returned. Not open to Nintendo employees, agents, affiliates and families. This contest is subject to all federal, state and local laws and regulations.

HOW DO I BEAT CASTOTH AT LARAI CLIFF?

Many experienced players agree that Castoth, a red demon at Larai Cliff, is one of the most difficult opponents in the game. The principal strategy to beating him is dodging the lethal projectiles that bounce across the chamber. Castoth can only be hurt when his eyes flash, and lining up for a swing at that exact moment requires split-second timing. Hit him once or twice in the head, dodge the laser attack and wait for the hands to reappear.

Hit each of Castoth's hands five times until he loses his grip. Now wait for his eyes to flash.

The key to defeating this monster lies in dodging laser attacks and everything else in the room.

HOW DO I DEFEAT THE MUMMY QUEEN?

The Mummy Queen inhabiting the pyramid is a complicated foe that has a number of tricks up her shrouded sleeves. Shadow's enhanced strength and ability to morph into a liquid form makes him the best character for defeating the Queen. You can only hurt her when she is in human form. Avoid the spirits by changing into liquid when they close in. Don't be a stationary target—use the warp points in the room to switch between the top and bottom floors.

A mummy with an attitude! Strike the queen when she is in her human form. Watch out for the bolts!

Shadow can morph into liquid to avoid the hordes of minions controlled by the Mummy Queen.

Dodge the falling stones when the Mummy Queen decides to bring the house down.
**How Do I Change a Character’s Alignment?**

A character’s alignment changes depending on how your party reacts during encounters with wandering creatures. These monsters randomly approach the party, but will fight only if you decide to attack. If you want your character’s alignment to evil, attack wandering creatures in every encounter. If you want your evil-doers to be good, leave the monsters alone.

**How Do I Increase My Swim Skill Rating?**

A character’s Swim Skill Rating increases by defeating monsters while in any of the pools found between Level Two and Level Seven. The Swim Skill Rating is the number of underwater levels a character may safely dive without drowning.

**Where Are Some Good Places to Gain Experience?**

As they do in most role-playing games, Wizardry V characters build levels by defeating various monsters in the game. While you can build levels anywhere in the dungeon, some areas allow players to rapidly build up levels and gold. One such location is on Level Seven where the party encounters a Phoenix with a riddle. If you answer the riddle incorrectly, you must defeat the Phoenix. Another method is to circle around a healing pool while looking for monsters. This technique saves valuable spell points for combat.
**ADDAM'S FAMILY VALUES**

WHERE DO I FIND THE CANDLE IN DUNGEON THREE?

After Wednesday receives the pumpkin, she will request a candle to illuminate her jack-o'-lantern. The candle is located in Dungeon Three. To find this labyrinth, jump off a bridge south of where you spoke to Wednesday. You cannot jump off this bridge until you have spoken to Phweep in front of the Greenhouse. Talk to Phweep at the bridge, then jump off.

 HOW DO I GET A PASSWORD?

Cousin It provides players with a password to save their game. You can find him in the dreary Forest and Swamp area.

From the sleeping gargoyles, enter the Swamp, walk right and descend a staircase. Continue right to the centipede moving back and forth.

From the centipede, walk down to an intersection. Go right at the intersection, past a bridge, and follow the path up to Cousin It.

HOW CAN I INCREASE FESTER'S LIFE BAR?

While Fester normally increases his ill-health meter by defeating various enemies, Morticia can also extend Fester's life. Just be sure you give her the right gift. These presents include the Black Rose, the Skull Rattle and the Headless Teddy. The Black Rose is in the lower right corner of Dungeon One. The Skull Rattle is located in the Rockies. Be sure to talk to Phweep in the cave in the lower right corner. The Headless Teddy is in Dungeon Five, down one room and left one room from the polluted water.
HOW DO I THROW MY OPPONENT OUTSIDE OF THE RING?

In order to throw an opponent outside of the ring, both your wrestler and your opponent's need to be near the right or left side of the ropes. You must use a suplex move by pressing the A Button to get the wrestlers to grapple, then press the B Button. If you have moved your wrestler close enough to the ropes, there is a good chance your opponent will be thrown out of the ring.

HOW DO I EXECUTE A SPECIALTY MOVE?

Specialty Moves are unique and powerful moves each wrestler can perform once or twice during a match. Every wrestler has different characteristics that make his Specialty Move unique. Execute the Specialty Move by pressing the Select button. The move cannot be executed until a diamond appears under the second bar on the player screen. Once the Specialty Move has been made, the diamond will vanish and the player will not be able to conduct another move until the symbol reappears.
What's our game plan?

There's this guy in Delaware who seems to know every move in Killer Instinct, and someone else in Montana who's an absolute expert in Might & Magic. And Nintendo's game counselors are experts on almost every game ever released. If you could bring all of these people together so they could swap tips, you'd really have something. That's what the Nintendo area on America Online does: it connects game players from all across the country with each other. It gives you game play strategies straight from the pros here at Nintendo, exclusive game reviews from Nintendo Power, and the opportunity to talk with game counselors and other video game industry experts. It gives you the chance to get the earliest information from major events like E3 (wait until you see our live daily "broadcasts!"). There will be screen shots and video clips from upcoming games, and game maps to download and print. But in addition to all this information, we'll give you the chance to participate in everything. Disagree with a game review? There's an area where you can post your own review for everyone else to see. Know the answer to someone's game play question? You can use your game play expertise to reply. If you want to become an expert on a game, you can switch to the Pro Area and download the same hints that Nintendo's game counselors give people on the hot line.
The Nintendo Power area is so huge, it's broken down into several chunks, just to make it easier to find stuff.

**Play It Loud**

Here's your chance to talk back to Nintendo or chat with people who are as obsessed with games as you are. You can enter the contests and send e-mail to Nintendo Power magazine. Cast your vote for the top twenty games of the month or join clubs dedicated to your favorite games. Hang out and take part in the daily live conversation with one of Nintendo's game counselors. Play It Loud is an attitude area; it gives you the chance to sound off!

**Games**

This is the area with a true connection to the pros here at Nintendo. It's where you go to get the game strategies for those games that really throw even great game players for a loop. It's your chance to get the same detailed strategies that the game counselors use to handle phone calls. Now you can skip the phone call and go straight to the information! There's more in this area, too, like Now Playing game reviews. More than 220 games will be covered, which is great, especially for those of you who didn't keep your back issues. Get a pro's opinion of the strengths and weaknesses of the game before buying or renting it. Disagree with the review? There's a place for your own review as well, so you can put in your two-cents' worth. This is also the place to go for late breaking news about upcoming titles, since Pak Watch will also be online. Classified Information will be there, so it will be easy for you to send us new codes you've found.

**Systems**

You've got to have a place to get info on the hardware systems, and this is it. Find out the Virtual Boy technical specs. Look up the latest on Nintendo Ultra 64 or discover the latest tricks of the trade. See what Nintendo's come up with to make Super NES 16 bit games better than ever. You can get all the specs all the time. Consider it your online Nintendo Power Library. Because this is all online, it's more interactive than a printed magazine: there will be bulletin boards where you can discuss hot topics and argue about the systems.

**Nintendo HQ**

The Headquarters is where you need to go online for press releases, addresses and phone numbers (in case you forget the number to the game counselors) and other "official" company information.

**Smiley's**

Sometimes you've got to say it with a big grin on your face. With online services, there's an easy way to make sure that the people you're talking to know you're only kidding. You just use smileys.

Smiley's make sense only when you look at them sideways. If you want to grin at someone, try this: :-). It looks like a person smiling, right?

But you don't always want to smile at everyone. Someone says something that deserves a frown, like claiming that he's the best Killer Instinct player in the universe. You could send him a comment with one of these tacked on:-[;

Here are a few other smileys that might come in handy in your online conversations. Remember to look at them sideways.

-:- This is a grin with a wink thrown in. It means you're just joking.

:-( Shortened version of a smiling face.

:-) This one usually means that the person you're talking to is getting boring. You might want to use it with a :-)), just to make sure the person knows you're not being too serious.

:-] You just made a sarcastic remark.

8-) Smiling person who just happens to wear glasses.

:-( Punk rocker with a big grin.

#: It's hard to smile with braces on.

8=+) Very frightened person.

Paul Hawkins is Nintendo's online game counselor. You'll find him hanging out in the Nintendo area of America Online whenever he's not on the game counselor phone hotline, and he'll be online every afternoon in the game chat room where you can ask him questions. His screen name is NOA Paul. His profile tells you his full name, where he lives, his birthday (in case you want to send him an e-mail birthday card), and what hobbies he likes (in Paul's case, his hobbies are Nintendo video games, arcade games, and motorcycles). His occupation? Well, you already know that. And Paul's personal quote seems to be more a challenge than a quote: "If I don't know it, it ain't worth knowing."

Creating your online personality.

People on America Online create their own personalities for talking with their friends in cyberspace. Sometimes these personalities are creative; sometimes they're fairly close to reality. It's your choice. As a Nintendo fan, you get the opportunity to create a personality that shows your interest in video games. There are two parts to creating your online personality: member profiles and screen names.

Profiles

Profiles are great for helping everyone else know a little bit about you. Of course, these profiles aren't always 100 percent accurate—a lot of users are, well, very creative when they create their profiles. But the profile is a great way of telling people who you are, how old you are, and what your favorite hobbies might be. If you think you're the hottest Killer Instinct player in the entire state, you can add that to your profile.

Screen Names

Kraidman and Demonspawn hang out in the video game area on America Online, and Moogles and Wizzle can share codes on NBA Jam TE, if you ask them nicely.

Because you don't have to use your real name, you can pick any name that suits your personality. Once you have a screen name, that's what everyone will see in the chat rooms, on the bulletin boards, and it's the name they'll use to send you e-mail.

So how do you pick a screen name? Video game characters are popular (in fact, it's hard to find a character not already being used), and any name that shows a little Play It Loud attitude is great. There are millions of names already in use, so spend some time thinking about what name you want before you sign on for the first time.

On America Online, you can have up to five names on one account, so up to five family members can have their own screen names, or you can have more than one.

Hint: If the name you really want is in use, try adding a few numbers after it. You can't be Fulgore, but Fulgore 45 is a great name!
Cyber Surfing
Celebrities and other Interactive Events

America Online has special “auditoriums” set up where you can go to listen to guest speakers and ask them questions. Sometimes it’s celebrities, sometimes it’s other special people. We’ll sponsor guest speakers all the time, so this will give you a chance to discuss Killer Instinct with people like Ken Lobb, the product manager for KL. We’ll have other special events and video game celebrities, too. Special videogame industry events like the upcoming E3 are certain to generate Nintendo auditorium events. If you’re already on America Online and you have an idea for a good guest speaker, e-mail your idea to NOA PAUL.

If you want to talk to NOA Paul live, he’ll be hanging out in a Chat Room every afternoon. There are hundreds of Chat Rooms on America Online, dealing with every sort of topic. We’ll have a room of our own set up for discussing Nintendo games and systems. Stop by to ask questions, or join in the conversation with people you’ve met online.

Downloading. That’s when you take a file and copy it to your computer. We’ll have tons of files for downloading, like Killer Instinct pictures, new game screen shots, photos of famous video game personalities, and game hints and strategies.

The Nintendo Power area on America Online gives access to all these interactive areas, special events and special files, so there’s a lot going on. You’ve got to keep your Power subscription going too, though. There’s no way our online service can provide everything you’re used to, like in-depth full color maps, or excellent extra stuff like POGs and items from the Super Power Club.

If you’ve got a computer and a modem, and you’re interested in signing up for America Online, call 1-800-827-6364 and ask for extension 12386.

Online Abbreviations

When you’re in a chat room or putting a message on a bulletin board, it can save time and keystrokes to use abbreviations. Of course, if you use too many abbreviations, no one will know what the heck you’re talking about, but there are a few standards that everyone knows.

- **BTW** By the way, “BTW, did you see the latest issue of Nintendo Power?”
- **IMO** In My Opinion, “IMO, its coverage of Earthbound was amazing.”
- **IMHO** In My Humble Opinion, “IMHO, it could have had more pages.”
- **LOL** Laughing Out Loud, “Great joke...I was LOL.”
- **ROTFL** Rolling on the Floor (laughing), “No kidding...I was ROTFL. IMHO the best joke I’ve heard in weeks.”
- **FAQ** Frequently Asked Questions, This is a list someone has compiled of questions that get asked a lot. “Does anyone have the FAQ for Final Fantasy 3 that you can e-mail to me?”
- **BRB** Be Right Back, When you need to leave the keyboard for a few minutes, to feed the dog, take out the garbage, or other emergencies.

Connecting with us online

If you are already on America Online and want to get in touch with us, send e-mail to NOA PAUL. Let us know if you have any ideas for the area, or if you’ve created your own smiley’s that you want to share with everyone else.
Malibu Games hits the European professional golf circuit with PGA European Tour for Game Boy. Four different courses and dozens of players currently on the European tour are featured on this Super Game Boy enhanced pak. Face off against Germany’s Bernhard Longer in a skins match at the famous Crans Sur Sierre in Switzerland, or climb the leader board in a star studded tournament at Surrey, England. If you’re looking for a challenging golf game, PGA European Tour definitely makes the cut.

Pick a set of clubs according to your level and style of play. There are four sets available to suit every ability. Club selection determines from which tee you start. Choose from beginner, amateur, semi-pro, and pro clubs. Beginner clubs have a variety of irons and woods to cover distance. The pro set specializes in precision accuracy near the pin. Unlike most pro shops, you won’t have to worry about long lines or getting a tee time.

Choose from three options: practice, skins or tournament. Tournament mode features four rounds of golf against top European players.

Use the target cursor to preview the layout of the hole and plan your strategy. Take note of the wind direction as you move the target cross hairs to the exact location you want the ball to land. This feature is great when you have to compensate for a strong wind. You can elect to add fade or draw to each shot and determine the strength of your swings. It takes experience and patience to get the ball to land exactly where you want it. After you hit the ball, you can review your shots on instant replay. Want to do the whole thing over? Practice mode even has a mulligan option!

A swing gauge accurately measures the amount of club velocity behind the ball at impact.

At the end of every stroke, players can review the flight of their ball or continue playing.
From the windy open courses of Great Britain, to the arid shores of Spain, to the towering spires of the Swiss Alps, PGA European Tour offers a variety of terrain and conditions to challenge players of all levels and abilities. The golfer who employs strategy with accuracy will find all of these courses rewarding.

**FOREST OF ARDEN**
Warwickshire, England

Home of the English Open, the Forest of Arden in Warwickshire is a 7,102-yard course interspersed with trees and water. The Forest of Arden’s layout includes recent course revisions by designer Daniel Steel. Blustery winds are often a factor during play here.

Wentworth’s convoluted greens provide opportunities for players to sharpen their short games.

**WENTWORTH**
Surrey, England

Nicknamed the Burma Road, Wentworth earns its moniker from a series of long par fours located on the front nine. These narrow, straight fairways frequently rob players of birdie opportunities. If winds are favorable, cut the corner on the eleventh hole.

**CRANS SUR SIERRE**
Switzerland

Wedged between two high ridges in the Swiss Alps, the Crans-sur-Sierre is home of the Swiss Open and the Canon European Masters. Evergreen trees and pencil thin fairways emphasize shot accuracy. Lay up short or aim around the fairway bunker on the first hole.

Evergreen trees pepper this course—don’t get stuck behind one.

**VALDERRAMA**
Soto Grande, Spain

Remodeled by world famous course designer Robert Trent Jones, Valderrama is considered one of the most scenic and challenging courses in Europe. Many holes are heavily protected by bunkers, while Mediterranean breezes keep players second-guessing their club selections.

You can cut the corner on Valderrama’s second hole dogleg, but you risk losing a ball.

**POWER-UP**

**WATCH THE PRO!**

Do you lay up short or go for the pin? Which club should you use? Where should you aim to counterbalance crosswinds? Sometimes all of these golf strategy questions can seem overwhelming. Pair yourself up with a pro and watch him play first. Learn from his mistakes and make a great shot out of his good one.

NINTENDO POWER PLAYER'S POLL VOl.72
P.O. BOX 97062
REDMOND, WA 98073-9762

OFFICIAL CONTEST RULES

To enter, either fill out the Player's Poll response card or print your name, address, telephone number, Vol. 72, and the answer to this trivia question on a piece 3 1/2" x 5" card. Mail your entry to this address.

One entry per person, please. All entries must be postmarked no later than May 31, 1995. We are not responsible for lost or misdirected mail.

One or about June 15, 1995, winners will be randomly drawn from among all eligible entries. By accepting their prizes, winners consent to the use of their names, photographs, or other likenesses for the purpose of announcements or promotions on behalf of "Nintendo Power" magazine or Nintendo of America Inc. (NOA) without further compensation. Prizes are limited to one per household.

Chances of winning are determined by the total number of entries received. The ratio of prizes to entry cards distributed is 50 / 1,000,000. No substitution of prizes is permitted. All prizes will be awarded. To receive a list of winners, which will be available after June 30, 1995, send your request to the address above.

GRAND PRIZE: The Grand Prize Winner NOA will provide airfare and accommodations for the winner and one guest. If under 18, the winner must be accompanied by a parent or guardian. The winner must also provide a written release to NOA. Estimated total value of all prizes is $5,000. Exact date and the trip is subject to determination by NOA. Some restrictions apply. Valid only in the U.S. and Canada. Void where prohibited by law. Not open to employees of NOA, its affiliates, agencies, immediate families. This contest is subject to all federal, state and local laws and regulations.

THIRD PRIZE:
NINTENDO POWER T-SHIRTS

50 WINNERS
LAND A LUNKER IN YOUR LUCKY T!

The deluxe prize package includes a $100 gift certificate from Wrangler Rugged Wear, a Zebco Rock II Combo rod and reel, a flashfinder from Engle™ Electronics, a Victory II jacket from Ranger® Boats, a Rubermaid® Classic® cooler, an official cap, band towel and tote bag from BASS®, additional caps from Lowrance™, Evinrude® and Johnson® Outboards, shirts from the Bass Masters Classic® Lowrance™ and Evinrude® and Johnson® Outboards, and a book on Spinnerbait Bassin' from Bass Master magazine.
Fore! Break out those clubs, it's tournament time! Josh Sommers from Cottage Grove, MN sent in a blistering hot score of -39 in a 36 hole United Kingdom Course Tournament game. How low can you go? All entries must be played on the UK course in 36-hole tournament mode. We'll post the leader board results. The lowest scores win Power Stamps!

Josh posted a -22 on the first 18 holes and went -17 on the second half. You'll need to score an eagle or two to beat him.

Okay, let's settle the argument once and for all. Who has the best high score on one player Tetris Game A? How far into six figures can you go? Push the envelope and beat all your old scores. All screen shots must be from the Tetris & Dr. Mario Super NES game cartridge. The top ten scorers walk away with four free Power Stamps each.

Nobody can get enough of this game, so we brought it back for a second consecutive Power Challenge. This month we want to see how many Gold Medals (no, not Bronze Medals, lightweight) you can pick up on the regular courses. Mail in a photo of the Member's List Screen with your medal count. The top ten players pick up Nintendo Power Stamps. Go for the Gold!
Why doesn't the NES cartridge fit in this control deck? Use of a game enhancement device results in instant disqualification. The Arena is for players who want to show off their true talents. Find another use for the game enhancement device—like testing your trash compactor.

**POWER CHALLENGES**

Before you can enter one of the challenges, you must first capture your score on film. As many of you know, this can be tricky. If you are taking a photo of a Super NES or NES game, first move your system near your television, so you can get a photo of both the system and high score at the same time. Dim the lights in the room a little bit, then take a few photos without a flash.

**VOLUME 72 101**
An underworld maze, a warped king and dark magic hold the secrets to the future in this epic title from Koei.

Long ago, the kingdom of Berimya suffered a terrible catastrophe when its king reached for dark secrets that were too great for him to control. The king's greed cast the land into isolation beneath the earth. Much later, a young adventurer discovers the entrance to this lost world. Players take on the role of Varik, who is pursued through the five main areas of the game by Alexis, who seeks revenge. Alexis is only the first of your worries in this land down under. Fantasy enemies roam the passages of ruined Berimya. You'll also find shops, fountains, treasure chests and advice in the mind boggling maze. Although fighting takes place in real-time, as in a Zelda or Mana game, actual movement is somewhat limited by awkward play mechanics. The review in this month's Epic Center will get you started safely on your quest.

Extremely awkward play control, but you do get used to it given enough time. (There are two movement options and both make it very difficult to fight circling foes since the Varik sprite always faces straight ahead.) Graphics are unexceptional.

The latest Fatal Fury tournament fighter finally makes it to the Super NES thanks to Playmates.

If there's a third major fighting series on the Super NES after the Street Fighter II and Mortal Kombat games, it's probably the Fatal Fury titles. Fatal Fury Special enhances many aspects of the earlier Fatal Fury games, including increasing the speed of the control and graphics. The 32 megabits of memory make for good graphics and animation, but the retail price could be steep. Playmates picked up the title from Takara earlier this year, which has delayed the expected release. Power focuses on FFS in a Take 2 review this month.

Good graphics and challenge (For die-hard tournament fighter fans.) Improved combos.

Special moves are difficult to make. (Timing must be precise.)

THE FLINTSTONES

Company ............ Ocean
Release Date ....... May 1995
Memory Size ...... 16 Megabits
Fred Flintstone sets off on a Jurassic journey to rescue his friends and family from a real Neanderthal.

Ocean's latest movie-based Super NES game stars the original whacky stone age guy, Fred Flintstone, Joe, Mac, Prehistorik Man and all the others to take a back seat when it comes to the popularity of the yabba-dabba-do man. In this side-scrolling platform game, Fred uses everything at hand to make his way through a megalithic maze filled with hungry dinos and other baddies. What makes The Flintstones interesting is the tactics of using the crude tools like the bowling ball and the more complex animal-driven machines found throughout the game. Don't miss this month's review.

Good graphics and more interesting play than many platform games

Play control requires precision but suffers from random detection like The Lion King

GODZILLA: DESTROY ALL MONSTERS

Company ..........Toho
Release Date ......April 1995
Memory Size ......16 Megabits

Toho, the masters of the monsters, bring Godzilla back to America for a giant brawl.

You are Godzilla—or Mothra, MG, Gigan, Anguirus, King Ghidorah, Megalon, and Super MG—in this tournament fighter game from Toho. Like any fighter, you have to master the monsters' special moves to become effective. A little experimentation (in which trying standard Street Fighter II moves will pay off) results in some fire-breathing devastation. Three levels of difficulty make the one-player game more interesting, but a speed control would have been an even better addition. There just isn't a lot of variety here, and the monsters seem to be mismatched, with some of them being very strong and easy to control while others are a pain in the thumb. Big fans of Godzilla might want to check this one out, though, especially for the two-player action.

Great characters: The two-player game can be fun. Some cool special attacks like infrared eye beams

Slow action: Not a lot of challenge

J U S T I C E L E A G U E T A S K F O R C E

Company ..........Acclaim
Release Date ......May/June 1995
Memory Size ......24 Megabits

Characters leap out of the pages of DC Comics in Acclaim's Justice League Task Force.

If you're wondering what's up with Justice League, Sunsoft recently sold this tournament fighter to Acclaim. What Acclaim picked up was a good looking fighter with pretty standard play but great characters. As in most tournament fighters, the action is best experienced with a friend. Fighting the computer-controlled players may not keep you excited for long. The game includes many of the top comic super heroes from DC's lineup. Power reports on the moves and strategies for Justice League in this month's review.

Good graphics and options: Standard controller motions for special moves

Play control is on the slow side: Single player option isn't very challenging

KING ARTHUR & THE KNIGHTS OF JUSTICE

Company ..........Enix
Release Date ......May 1995
Memory Size ......20 Megabits

Arthur King and his team find themselves in Arthurian England with a quest to conquer dragons and defeat the evil Morgana.

Enix turned a Saturday morning cartoon adventure into an epic based on Arthurian legend. In King Arthur and the Knights of Justice, you play the part of Arthur and the Knights—a team that has been mysteriously transported back in time. The action ranges throughout England, from Camelot to Morgana's castle. Eight areas contain evil knights and monsters, wizards and plenty of puzzles. Choosing which knights to take with you is a big part of the game and exploring every nook and cranny is the other main activity. This month's Epic Center takes you to the heart of this adventure.

Authentic Arthurian elements: Lots of exploration. Interesting variation in play tactics from using different party members. Well-sun graph and graphics

Most of the puzzle-solving is a matter of finding hidden items. (If you read the help messages, there will be no mystery.) The sword recharges slowly, keeping you out of the heat of most battles. Battle play control is too limited
Kirby gets a paw, a fin and a wing up in this new Super Game Boy adventure from Nintendo.

Kirby and company suck, well, in a good way. Kirby uses the same unique attack method—sucking up objects and spitting them out—that made him a Game Boy hit with Kirby's Dream Land. He also makes use of his new friends by riding, swimming or flying with them. When Kirby and one of his pals are together, he becomes a sort of Super Kirby like Super Mario with an extra hit and enhanced powers. Don't let Kirby's cute, round appearance fool you. He eats monsters for breakfast and belches on demand. This month's review reveals how Kirby breathes life into platform games.

**Examined Points**
- More game play and strategies than in previous Kirby games
- Thanks to the round one's new pals
- Excellent play control, lots of variety and great fun
- Simple graphics (Although the graphics don't detract from play, some non-initiates may think the game is only for beginners Hall)

Pac In Time

Pac-Man rolls and romps in a Super Game Boy platform game that sends our hero back in time to the primitive days before video games—1975.

Pac In Time for Super Game Boy is a color feast when played on the big screen. The game play involves Pac-Man bouncing through side-scrolling levels, avoiding traps and gobbling energy pellets. The Pacster bounces like a rubber ball, spits out fire shots, eats energy pellets as well as other things like stones. There are areas within the seven map layouts, unfortunately, that allow players to trap themselves without hope of escape. It is important, therefore, to write down the frequent Passwords so you don't have to retrace your steps.

**Examined Points**
- Nice graphics and good use of Super Game Boy enhancements
- Poor map layouts that allow players to get stuck.
GameTek brings the Pinball Fantasies experience to Game Boy with four offerings.

The four pinball machines included in the Game Boy version of Pinball Fantasies are Billion Dollar Game Show, Stones Bones, Party Land and Speed Devils. The action is very solid in all four, although a little bit slow. You'll really get the feeling of playing pinball with flashing bumpers and bonus scores. All of the games have large screens that scroll to reveal the entire layout and upper paddles that let you keep the ball in play in the rich upper zones. The upper paddle in the Billion Dollar game is set at an unusual side angle to allow you to keep the ball in a loop. In any of the games, you can nudge the machine by tapping the B button, but the Tilt message will stop you if you hammer it too hard.

- Good graphics and a realistic pinball feel. Some interesting extra paddle play.
- Annoying sound track. Paddle action is a bit slow. No Super Game Boy enhancements.

The Looney Tunes family of games grows to piggy proportions with Porky Pig.

While reading over travel brochures for his upcoming holiday, Porky Pig falls asleep and dreams of a nightmare vacation. Porky's horrible adventure consists of standard platform action with some nice graphics and special effects, plus some of the fun animations that you would expect from a Warner Bros. character. The game play never goes beyond hopping and hopping, but some of the obstacles are interesting. Like most of the other Sunsoft Looney Tunes games, each stage has continue points scattered throughout the course and the map layouts require exploration.

- Nice graphics with some excellent effects. A fun, quick play.
- Basic side-scrolling action. Music and sound is not up to the usual Sunsoft standard. Not overly challenging.

Power Instinct fighting with a few twists, from Atlus.

Power Instinct, like many tournament fighting games, began life on the arcade circuit. The Super NES version does a good job of recreating the action and graphics. Power Instinct uses many of the standard moves and themes of Street Fighter II type games, but it also includes some humor and unique moves and modes. The Life Attack mode challenges you to beat eight, 16 or an infinite number of opponents with one life bar. The regular one-player game takes you through Japan, fighting the eight Power Instinct fighters.

- Good sound and play control is fine. Unique, humorous moves, like getting gammed by granny. Fun two-player action.
- Nothing really stands out except the challenge of the Life Attack. Not much challenge in the one-player game.
Cartoon antics meet history head on.

Ren and Stimpy return for a reprise in the Super NES version of Buckeroos, which turns out to have nothing in common with the previously released Buckeroos for the NES. Unlike previous R&S games, in this side-scroller the game play doesn't take a back seat to the graphics. In fact, the graphics don't look as awful as the show. The game, on the other hand, has some variety that will keep your interest up—at least for a little while. You collect objects that can be hurled at foes and the enemies set up some good ambushes. It would be easy to condemn Buckeroos as just another vehicle of Ren and Stimpy silliness, but it has a few moments of near amusement.

**Good story and cinema scenes**

**More game play than previous R&S titles**

**Graphics aren't very Ren & Stimpyish**

---

**THE SHADOW**

The last descendant of Ghengis Khan is inciting gangs in New York of the 1930s. Only the Shadow can stop him.

Who knows what evil lurks in the hearts of men? The Shadow, that's who And once he knows that you're up to no good, he'll be on your trail like a bloodhound after an escaped con. The Shadow combines some cool cinematic scenes and music with a standard side-scrolling street fighting action game along the lines of Double Dragon. What sets it apart are the special moves that the Shadow can use including an invisibility move. A special power meter shows how much strength the man-in-black has for special moves. Regular combat doesn't break the mold. Expect lots of basic kicks, punches and throws. You can pick up weapons from time to time, as well, but you keep them for a limited time only.

**Good cinematic sequences**

**Fun special powers**

The play is more varied than most games of this type. Worth a look.

**Play control is a bit slow and the animation isn't impressive**

Lots of characters punching and kicking.

---

**TIME COP**

Jean Claude Van Damme, the master of the forearm slam, gets digitized on your Super NES.

Great digitization doesn't necessarily result in a great game. The graphics in Time Cop look refined. The digitized animation and cinema scenes are some of the best in any side-scrolling game. But the game play will leave you hoping for an intermission. The biggest problem is play control. Jean Claude seems to slip and slide out of control for no reason. He doesn't take a hit well, either, falling back a long way when he takes one in the chops. For variety, there are some shooter stages with vehicles, but the level is never anywhere near as exciting as JVC's excellent Star Wars games. This game is definitely not of the same caliber.

---

**TRUE LIES**

Special Agent Harry Tasker must stop nuclear terrorists in Acclaim's action-packed version of the film starring Arnold Schwarzenegger.

True Lies turns out to be a true gem as long as you have a stomach for gore. Following the events of the hit movie, the game takes you to locations all over the world to face bad guys that are blasting at you. Whether he's in a mansion or a subway tunnel, someone is always waiting for Harry. It's little wonder that all you can do is shoot back. You must be socially responsible, however, and try to avoid pummeling innocent bystanders. The 12 missions vary widely, from exploring overhead views to skating and flying a Harrier jet fighter. Your basic requirement is to stay alive, but there are enough missions goals in the game to keep things interesting. For the whole truth about True Lies, turn to this month's review.

**Lots of variety**

**Good play control**

**Good graphics**

**NINTENDO POWER**
Warlock means more movie magic for the Super NES from Acclaim.

The cult hit Warlock movie introduced a classic conflict that has raged throughout the ages. Hero, a warrior from the past, has been following the evil Warlock on his journeys through time. In this game, Hero's job is to gather up seven ancient rune stones of power before the Warlock can use them to rule the world. This side-scrolling action game takes you into dark fantasy worlds and arms you with magic spells and levitation crystals. Through most of the game you are following closely on the heels of the Warlock, fending off his constant magic attacks. This month's review should give you the edge you need.

Seven levels of sorcery. (The magic attacks are effective and fun.)
Fairly challenging. Eerie music.

Play control feels jerky. Learning to control new magic spells can be difficult since there is no explanation.
One of the most popular PC games of all time will come to the Super NES next fall when Doom makes its appearance thanks to Williams. (Another version, previously announced in Pak Watch, will debut on the Nintendo Ultra 64.) The first published pictures of the Super NES Doom look mouth watering. The texture mapped 3-D environment appears realistic with a minimum of pixelation. Sculptured Software has been working with Williams and id software to recreate the excitement of the original Doom games for the Super NES. Going a step farther, players should be able to link up and recreate the network play of Doom by using the XBAND. Catapult has helped the developers in creating an XBAND patch. Doom is possibly the ultimate multi-player action game. Players stalk each other through the 3-D sci-fi world with heavy-duty weapons. As a one-player game, the thrill is nearly as great, because the Doom world is filled with truly hideous and vicious beings.
Earthworm Jim for Game Boy digs deep to deliver a true-to-the-original action experience, from crows to cows. Eurocom developed the game for Playmates, but they remained true to creator David Perry's vision. In fact, the game feels amazingly similar to the Super NES Earthworm Jim, and even the maps are very close. Our 99.99% finished copy had smooth play control that was even better in some ways than the overly bouncy original. Playmates opted to leave out any Super Game Boy enhancements, which is unfortunate, but the graphics and animation still look terrific. Fans of Earthworm Jim will definitely want to check this one out when it hits the stores this summer.

Any game that has been in the works for three years is either in serious trouble or is very good. Nosferatu falls into the second category. The production quality of Seta's action horror game is excellent. Players will be reminded, initially, of Prince of Persia due to the small character and smooth animation. But very soon the richness of Nosferatu's graphics and music create a real feeling of mystery and danger. Our first game play session was met with gasps from onlookers as our character leaped across spike-floored chasms. The developers have included everything you might associate with vampires, from the shadowy castle to the packs of wolves that roam the grounds. Although the game often feels like Prince of Persia or Out of This World as you stomp on floor triggers and dangle from ledges, it also has the depth of Castlevania with puzzles, fighting action and bosses. Much of the magic comes from the details in this game—little touches to the graphics that add to the story or sense of place. As for the long development time, in this case it was worth it.
EA strikes again with Jungle Strike for the Super NES. The second Strike game puts you back in control of a Super Comanche attack chopper on sensitive, combat missions, but this time you begin in the good old U.S.A. In fact, the first mission begins as terrorists move into Washington D.C. You'll take off from the White House lawn, armed with missiles and machine guns. Once you find the terrorists in D.C., you'll move on to their jungle HQ. Graphically, EA has moved the Strike series up a notch. The game follows the pattern set in Desert Strike. Each mission takes place in a 3-D, overhead view with subscreens for controlling ammo and checking up on your mission status and goals. Your co-pilot skills at shooting and flying will affect your success rate. The battle begins early this summer. Don't miss out.

SYNDICATE

There haven't been many multi-player adventure games in the past. Secret of Mana probably qualifies as the best, and Gauntlet was the first successful game of this type. Now Ocean is bringing Syndicate to the Super NES. The plot of Syndicate takes you into a dangerous future world where cyborgs run amok and the world is divided into warring zones. Deploy your party of four agents straight out of the cryo chamber, load them up with weapons and special attachments like bionic arms, then send them out to clean up the cyber-scum. As a one-player game, your Syndicate agents move out one at a time to complete the mission, but if you plug in a multi-player adapter, four agents can work in concert to achieve their goals. Although the graphics in the action areas contain small characters and simple animations, the game play with four players is an interesting experience. Syndicate should be released this summer.
The Hanna Barbera cartoon comes to life (sort-of) in Hudson Soft's Super NES action game. You can play as either of the Kats and choose whichever level you want to attack as in a Mega Man game. The Kats' adventure includes conventional side-scrolling stages along with shooting stages that win Power's first-ever award for the most gratuitous use of Mode 7. Swat Kats combines fast action, more 1-Ups than any game of this century and colorful graphics. The final version won't challenge everyone, though. Swat Kats should be in the stores by June or July.

Now that Konami is bringing Castlevania Dracula X to the Super NES, the countdown has begun. The two shots shown here were taken from the Japanese version for the PC Engine. The Super NES graphics will be at least as good and probably better. We hope to have actual screens from the Super NES game very soon. In the meantime, dream a little. The return of Castlevania may be one of the hottest happenings of the year.
ACME SHOW

Your roving Pak Watchers found themselves at the ACME (coin-op) show in Reno, Nevada last March, checking out all the latest in arcade games. Since many of these titles will make their way onto the Super NES, and eventually to the Nintendo Ultra 64, you can consider this a preview of things to come. Some of the titles, such as Mortal Kombat 3, are already in development for the home systems. Pak Watch will bring you the first MK3 Super NES shots in next month's issue. But for now, sit back and check out the fun in Reno.

The tournament fighting category, as always, held the most exciting new games. Mortal Kombat 3 from Williams ruled the floor, and you can get a close-up view in this month's special article. After that, Capcom's first showing of Street Fighter The Movie raised a lot of eyebrows. The digitization of the actors from the movie is nothing short of spectacular. As Guile, you become Van Damme. The moves were good and the game's balance, although only 80% finished, felt right on. Veteran fighter developer Ken Lobb from Nintendo gave it two thumbs up and called it the surprise hit of the show. Along with MK3 and Street Fighter The Movie, the only other game to attract crowds was Killer Instinct. Other fighters on the show floor included Fatal Fury 3, Tekken, Double Dragon, Samurai Showdown 2 and Virtua Fighter 2. On the racing edge, Cruis'n USA continues to be hot and Sega showed off Sega Rally, which takes you careening down narrow, dirt roads. Namco's Ace Driver does a nice job of recreating Indy car racing. Namco had the ultimate virtual device—the CyberSphere—which was hooked up to the fighter game, Air Combat 22. After getting strapped into the virtual headset and seat, the player rotates in 3-D just as if he or she is actually in the cockpit of a jet fighter. It's cool, but it's so expensive that you won't likely find it in your neighborhood arcade. In the most gratuitous gun-play category comes the obvious winner, Cops from Time Warner Interactive. This shooter combines video footage from the popular TV show with an interactive pistol. T-Mek, also from Time Warner and Atari, makes a move on the Battletech front by placing up to four players in awesome tech-mech battles.

Namco's Alpine Racer, a skiing game with actual pivoting foot controls, was fun and super fast. Tommy Moe doesn't even move like this.

There are always some bizarre games at these shows, as well. Konami showed a laser-disc adventure that looked like a story-book while Sega had Sports Fishing, which included an actual rod and line, but no marlin. The next show covered by Power will be E3 in Los Angeles. Next month we'll share some exclusive news from Nintendo that will bring the house down.
VIRGIN INTERACTIVE JOINS THE DREAM TEAM

Virgin Interactive has signed on to the Dream Team for the creation of an exclusive title for the Nintendo Ultra 64. Virgin has been known for exceptional games on every platform including such hits as *The Lion King* for the Super NES and *Seventh Guest* for PC and PC ROM. Although the title that Virgin will develop has not been released so far, we'll bring you up to date as soon as we can.

WORLD HEROES

Playmates has snagged another tournament fighting title from Takara, *World Heroes 2 Jet*.

This time around it is a Super Game Boy game that rocks and looks good, too. *World Heroes 2 Jet* contains 16 fighters, a VS. Mode for two-player play and other options.
